TABLE SPECIFICS

<u>Notice</u>: This Guide is based on the gameplay of the Zen Pinball 2 (PS4/PS3/Vita) version of the Table on default controls. Some of the controls will be different on the other versions (Pinball FX 2, Star Wars Pinball, etc...), but everything else in the Guide remains the same.

INTRODUCTION

This Table came about as a result of the partnership between Zen Studios and LucasArts; this license allowed Zen to produce Tables based on the Star Wars License. As of now Zen has been licensed to release 10 Star Wars Themed Tables but with more Tables possible in the future.

The third batch of Tables was released in a 4 Pack which include the Tables; Han Solo, Droids, Star Wars: Episode IV – A New Hope & Masters of The Force.

This Table is of course the Star Wars: Episode IV – A New Hope; which is a Table that pays homage to the iconic Film. The Artwork and Audio cues are spot on once again, adding that unique originality to the Table's Playfield.

I hope my Guide will help you understand the Table better.

Skill Shot -

There are $\underline{6}$ possible Skill Shot requirements you must accomplish to be awarded with a Skill Shot, but only $\underline{1}$ can be activated. The $\underline{6}$ are represented by $\underline{6}$ different Lanes on the Tables Playfield as seen in the Image below -

Before you launch the Ball from the Plunger you can select which of these Lanes will be the Skill Shot Target by using the Flipper Buttons. Once you have highlighted the Lane you wish to go for, simply launch the Ball out of the Plunger and then send the Ball round the flashing Lane before the Score Hurry Up (displayed on the Dot – Matrix reaches 0) this will then award you with the Skill Shot.

Hidden Skill Shot *1 Million Points* -

Instead of doing the above you could launch the Ball from the Plunger with just enough power to land into the Hidden Skill Shot behind the Jump Ramp/Centre Target setup—

Power Gauge – As you pull back the Plunger (Analogue Stick on your Controller controls this) The Gauge will increase.

Pull it back to correspond to the Image to the Left.

If done correctly you will be awarded with a Hidden Skill Shot –

Open/Closed Ramps – Alliance Ramp (3) & Cantina Ramp (7)

Hitting either the Landspeeder Target/Sinkhole (1) or Standalone Target (9) will result in Opening or Closing the Alliance Ramp (3) & Cantina Ramp (7). When opened your shots will go into the Bumpers and when closed your shots will build towards the activation of either the Alliance or Cantina modes (explained later in the Guide under 'Various Modes' section).

Opened -

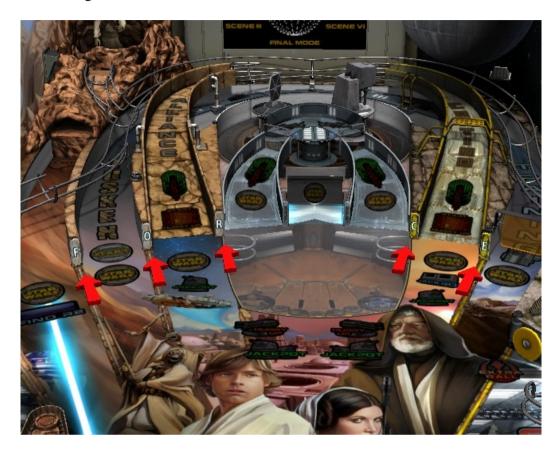

Closed -

Kick Back & Ball Save

To activate the Kickbacks on this Table simply hit the $\underline{5}$ 'FORCE' Targets which are at the sides of the Lanes shown in the Image below –

This will activate the Left Kickback, repeat again for the Right Kickback.

Note - This Table doesn't reset the Kickbacks earned if you lose a Ball

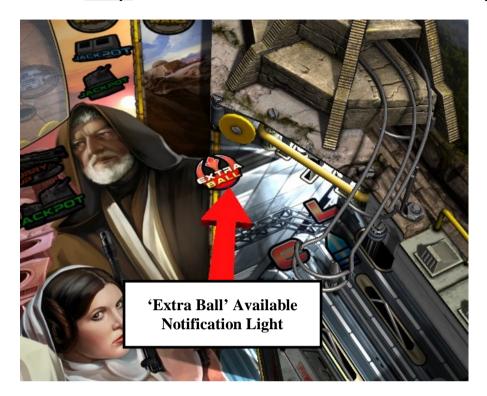

Ball Save –

The Ball Save will activate in some Modes such as Multiball Modes like Endor Multiball etc.

Note - Ball Save remains active until you lose the Ball or the Ball Save time limit runs out!

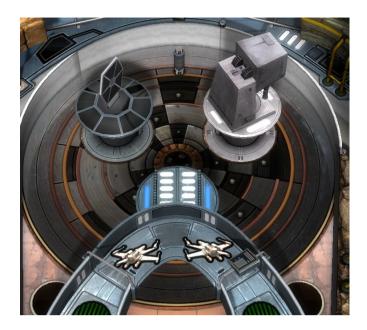

Extra Balls

There are <u>5 Ways</u> to achieve an Extra Ball – the Extra Ball is collected by hitting the Standalone Target (9) -

The Multiplier Level will advance to 2x Multiplier, repeat the above again to reach 3x Multiplier and so forth.

More information can be found near the start of the Guide under 'Open/Closed Ramps – Alliance Ramp (3) & Cantina Ramp (7)' section.

The Multiball will continue as long as you have a minimum of $\underline{2}$ Balls in play, you will have to repeat the above process again if you wish to re-enter this Multiball Mode again.

Scenes

To start a Scene you must first light all of the 5 'REBEL' Rollovers on the In's & Outlanes —

Once 'REBEL' is spelt out the Left Orbit (2) will engage the Scene selection process, simply send the Ball round it. –

Note – Each time you relight the 'REBEL' Rollovers <u>during</u> a scene, your Scene completion score increases by <u>5 Million</u>. Furthermore, the base Scene completion score of subsequent scenes starts off with the completion score you achieved for the previous completed Scene

Scene 1 - Diplomatic Mission *Timed*

Send the Ball round the Left Orbit (2) –

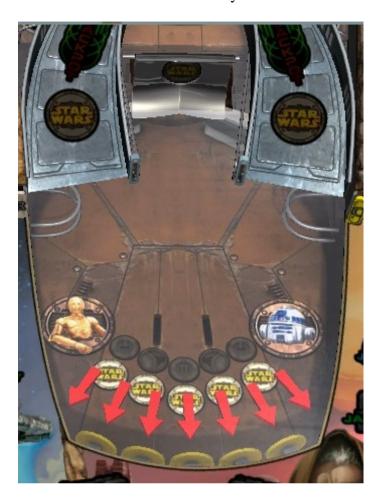

Now you will have a short amount of time to hit the Centre Target (5) before it reverts to the first part –

Repeat the above a further 2 times.

Now send the Ball through the Centre Target (5) to enter the reversed Mini – Playfield, here you will need to hit all of the Targets and then both of the C-3PO & R2-D2 Orbits. If you drain the Ball simply hit the Ball back into the reversed Mini – Playfield via the Centre Target, remember this Mission is timed.

Scene 2 - Not The Droids You Are Looking For

Timed

Hit the Ball up the Cantina Ramp (7) a total of <u>3</u> times to perform the Jedi Mind Trick on the Stormtropper –

Now hit the flashing Jump Ramp - Left Jump Ramp (4) or Right Jump Ramp (6) a total of 5 times -

After which the Scene is completed.

Scene 3 - It's Too Big To Be A Space Station *Timed*

Now these Lanes will be flashing – Alliance Ramp (3), Left Jump Ramp (4), Right Jump Ramp (6) & Cantina Ramp (7) hit them all –

Now hit the flashing Jump Ramps - Left Jump Ramp (4) or Right Jump Ramp (6) a total of $\underline{3}$ times, each successful flashing Ramp hit resets the timer.

Finally hit the Bumpers $\underline{25}$ times, simply send the Ball through either of the opened Alliance Ramp (3) or Cantina Ramp (7) –

After which the Scene is completed.

Scene 4 – Aren't You A Little Short To Be A Stormtrooper *Timed*

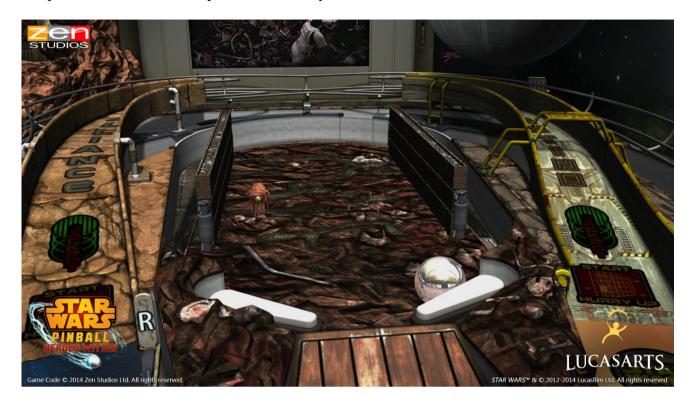

You must first find Princess Leia's Cell; all of the Lanes will be flashing therefore hit each of them till you find her Cell –

Once you find Leia the Trash Compactor Mini – Playfield will appear on the Playfield. You will need to send the Ball into that Mini – Playfield via the Centre Ramp and then using the Flippers on the Mini – Playfield hit $\underline{10}$ Dianoga Drop Down Targets –

Close up view of the Trash Compactor Mini – Playfield –

As time goes on hitting the Dianoga will become harder since the Compactor Walls close in as time goes on, so it's best to do this part as fast as you can.

Finally send the Ball through either of the opened Alliance Ramp (3) or Cantina Ramp (7) to spin the Bumper area $\underline{10}$ times –

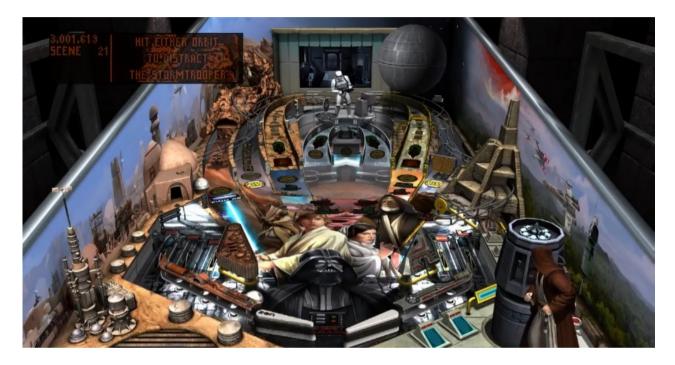

After which the Scene is completed.

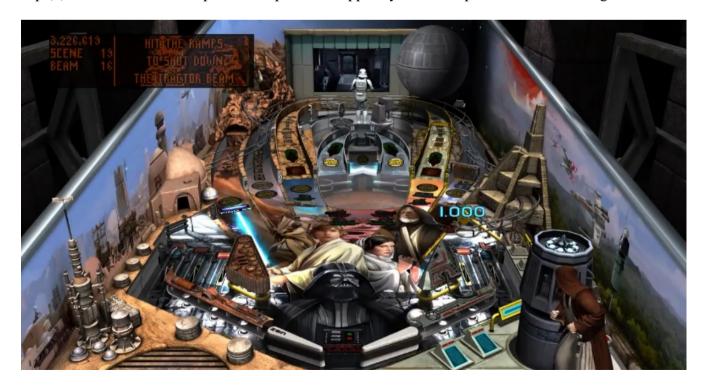

Scene 5 - Master & Apprentice *Timed*

Hit either of the Orbits – Left Orbit (2) or Right Orbit (8) to distract the Stormtrooper –

You will now have a short time frame to hit both of the Jump Ramps – Left Jump Ramp (4) & Right Jump Ramp (6) before the Stormtrooper wises up, if that happens you must repeat the task of hitting an Orbit.

After the above Obi-Wan will come face to face with Darth Vader -

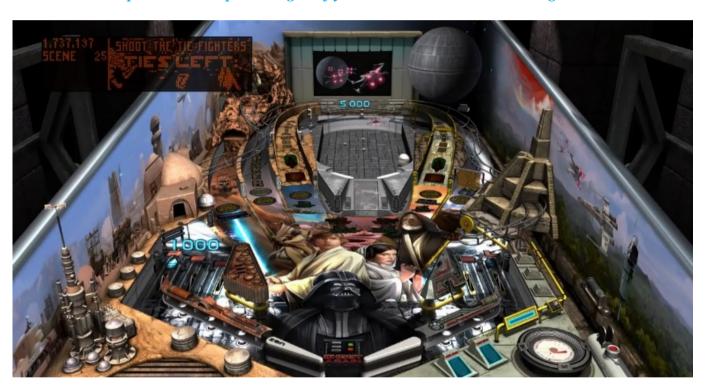

You need to hit the Spinner via the Right Orbit (8) to gain Force focus, the other Lanes will add time to the timer. The Scene is completed when the Force focus reaches 100%.

Scene 6 - You May Fire When Ready *3 Ball Multiball & Timed*

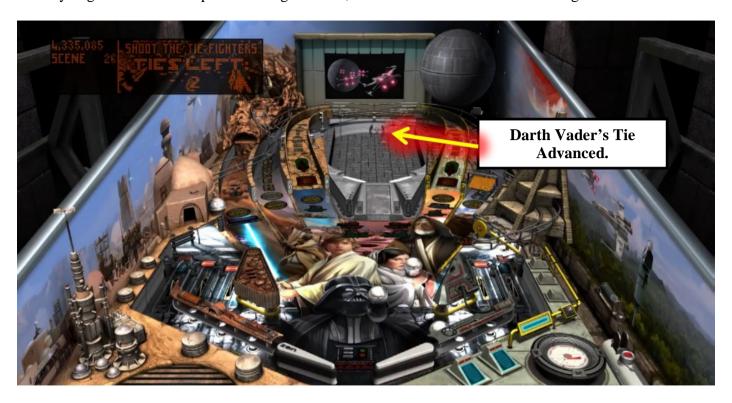

Upon this Scene beginning the Tie Fighter Mini – Playfield will be present at the Top of the Tables Playfield, you will also have a <u>3</u> Ball Multiball –

Note - that you have to have a minimum of 2 Balls in play in this Scene, otherwise you will have to repeat the above process again if you wish to re-enter this Scene again.

The Goal is to send the Balls into the Tie Fighter Mini – Playfield and using the Flippers hit $\underline{7}$ Tie Fighters before the time runs out, each Tie Fighter that is successfully hit will add more time to the timer.

When you get down to a couple of Tie Fighters left, Darth Vader's Tie Advanced will get in on the action.

Since its flying above the Playfield, you will need to send <u>2</u> Balls into the Tie Fighter Mini – Playfield to hit Vader's Tie Advanced. Once you get him and all the other Tie Fighters the Death Star will move into position.

Shoot <u>2</u> Balls into the Death Star's super laser via the Jump Ramps – Left Jump Ramp (4) & Right Jump Ramp (6). You will need to time the shots correctly and remember you're on a timer.

1 Ball locked into the Death Star's super laser –

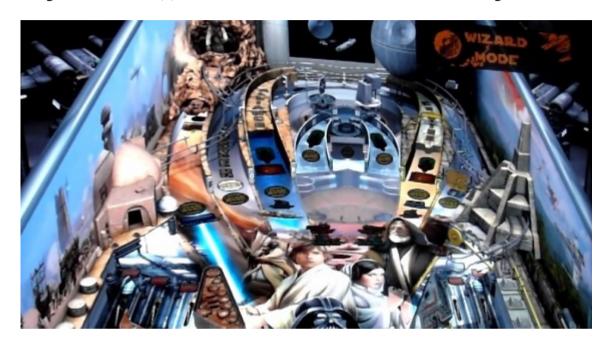

Finally hit the Ball which is locked to complete the Scene –

<u>Wizard Mode – The Death Star *4 Ball</u> <u>Multiball & Timed*</u>

Once you beat all $\underline{\mathbf{6}}$ Scenes, light all of the $\underline{\mathbf{5}}$ 'REBEL' Rollovers on the In's & Outlanes once more then hit the Ball through the Left Orbit (2). The Wizard Mode – The Death Star will then begin.

You will be given a 4 Ball Multiball; this Wizard Mode is in 2 Phases.

1. Phase 1: hit the flashing Lanes - till the Death Star moves to its centre position

2. Phase 2: once the Death Star moves into position hit the 4 flashing Lanes, the Death Star will begin spinning and progressively get faster as you hit the Lanes in succession. Continue till the Death Star explodes. Usually takes about 17 or so hits at the Death Star. Remember you have to do this within the time limit otherwise the Wizard Mode will fail.

Note - Failure to complete the Wizard Mode within the time limit will result in a Table Reset!
