TABLE SPECIFICS

Notice: This Guide is based off of the Zen Pinball 2 (PS4/PS3/Vita) version of the Table on default controls. Some of the controls will be different on the other versions (Pinball FX 2, etc...), but everything else in the Guide remains the same.

INTRODUCTION

Zen Studios has teamed up with Fox to give us a Bob's Burgers Pinball Table. The Table was released within a pack titled "Balls of Glory" which featured 4 Pinball Tables based on hit animated TV shows, one of those was of course Bobs Burgers.

Bob's Burgers Pinball sees you play through various Modes which draw inspiration from many of the shows episodes. The Table incorporates the art style of the cartoon, and various audio works from the series itself. The voice work is also ripped straight from the show to add that extra bit of authenticity.

I hope my Guide will help you understand the Table better.

Skill Shot - *1 Million Points, can be raised*

To Produce a Skill Shot you will need to have the Ball roll down the flashing “LOUISE” Rollover (above the Bumpers). There are 3 Rollovers – “LO”, “UI” & “SE”

Manually set the Plunger (Hand) as shown in the Images below. **Example:** Using a PS4 controller you can pull back the Right Analogue Stick to adjust the Plunger.

Each time you do a Skill Shot. A letter of “GENE” will become lit solid. If you perform 4 Skill Shots in the same game. You will light **EXTRA BALL** for collection at the Sink Hole (4).

“SE” (Right) Rollover:

“UI” (Middle) Rollover:

“LO” (Left) Rollover:

Time of Day

This Table has a “Time of Day” mechanic in action. Over the course of your play through of the Table the “Time of Day” will shift between “Day” & “Night”. Depending on the “Time of Day” different Game Modes will be available for activation/completion.

To manually change the “Time of Day” simply press and hold the “Launch” Button on your controller for 3 Seconds.

Day Time:

Night Time:

Kick Back & Ball Save

Kickbacks –

To activate the Kickbacks on this Table you will need to complete the Linda Hurry Up. This is activated by having all of the “LINDA” Letter Rollovers lit solid. Simply roll the Ball down the Rollovers, changing the lit Rollovers with the Flipper Buttons as to make the Ball roll down an unlit Rollover.

Once that is done you will have about 15 Seconds to hit the Ball up the Cross Ramp (10) using the Top Left Flipper. To gain access to that Flipper you first need to send the Ball up the Jimmy Pesto Lane (9), then send the Ball up the Cross Ramp (10) using that Top Left Flipper. This will then activate the Left Kickback. Repeat the process again to activate the Right Kickback, and to gain an EXTRA BALL you will repeat this process while both Kickbacks are activated.

Ball Save -

This is activated at the start of various Modes, or rewarded via Tina Random Awards mechanic.

Extra Balls

There are 5 Ways to achieve an Extra Ball;

Collect the Extra Balls by hitting the Ball into the Sink Hole (4) -

- **Method 1:** *Spell Gene*; Perform 4 Skill Shots. Look earlier in the Guide at the section titled “Skill Shot” for information on how to get this Extra Ball.
- **Method 2:** *Reach 10x times Multiplier and light “LOUISE” Rollovers one more time*; Look later in the Guide at the section titled “Raising the Multiplier” for information on how to get this Extra Ball.
- **Method 3:** *Random Tina Award*; Look later in the Guide at the section titled “Tina Random Rewards” for information on how to get this Extra Ball.
- **Method 4:** *Completed the Kuchi Kopi Mode (Night Time)*; Look later in the Guide at the section titled ‘Main Modes – Night – Kuchi Kopi’ for information on how to get this Extra Ball.
- **Method 5:** *Hit the Cross Ramp (10) while in the Kickback Hurry Up, while having both Kickbacks previously activated*; Look earlier in the Guide at the section titled “Kickbacks & Ball Save - Kickback” for information on how to get this Extra Ball.

Raising the Multiplier

The Multipliers on this Table will increase by 2x times, every time you light up all of the Letters of “LOUISE” by going down the 3 Rollovers above the Bumpers.

Once you completely max out the Multiplier at 10x times, repeat the process once more and you will light up **EXTRA BALL** at the Sink Hole (4).

****Note – Multiplier Level resets upon draining the Ball.****

Bob Targets

Hitting all 3 Bob Targets (2) in the **Day Time** will award you with 1 Million Points. In the **Night Time** it will start up the Kuchi Kopi Mode (outside a Mode).

Also hitting these Targets within the Main Mode will reset the Modes timer.

Tina Random Awards

Hitting all 4 Tina Targets (8) will give out a random reward. Rewards such as light **EXTRA BALL** or Ball Save etc.

Multiball Modes

There are 2 Multiball Modes on this Table. They are available at different times of day on the Table as shown –

Day Time Food Truck Multiball Mode *3 Balls *

Activation –

During Day Time you will need to hit the Spinner located at the entrance of Food Truck Orbit (1). You will see miles to travel on the Dot – Matrix.

Once that is done you will be able to lock a Ball by hitting it up the Wonder Wharf Ramp (5).

Repeat the above a further 2 times. Locking 3 Balls altogether, once done the Multiball Mode will begin.

Mode itself -

All flashing Lanes will result in a **Jackpot** reward (1 Million Points). Shooting 1 will then make that Lane become lit solid.

Once all the flashing Lanes have been hit, the **Super Jackpot** reward (5 Million Points) will be available at the Cross Ramp (10).

The Multiball Mode will continue as long as you have more than a single Ball alive on the Playfield. Otherwise the Mode will end, and you will need to repeat the above activation process to re-enter this Mode.

Night Time Trick-or-Treat Multiball Mode *3 Balls *

Activation –

During Night Time you will need to hit the Spinner located at the entrance of Food Truck Orbit (1). You will see miles to travel on the Ferry towards King Island (on the Dot – Matrix).

Once the Ferry reaches its destination, the Multiball Mode will begin.

Mode itself -

All the Lanes will be flashing permanently for **Jackpots** (250,000 Points), and the Cross Ramp (10) for **Super Jackpots** (1 Million Points).

The Multiball Mode will continue as long as you have more than a single Ball alive on the Playfield. Otherwise the Mode will end, and you will need to repeat the above activation process to re-enter this Mode.

Main Modes

Completion of the various Main Modes listed below will impact on the values of the **Jackpots** & **Super Jackpots** available in the Party Time Wizard Mode. So the more Modes you complete before starting the Wizard Mode will make for higher scoring possibilities.

Also hitting the Bob Targets (2) within the Main Mode will reset the Modes timer.

Day Time Modes

Kids in Crisis *Timed*

Activation –

Start this Mode by hitting the Mr. Frond Lane (3) a total of 3 times.

Mode itself -

Now once the Mode starts you will have a short amount of time to once again hit the Mr. Frond Lane (3) a total of 3 times. Once done, the Mode is completed.

Orders

There are a few things which will need to be explained for you to fully grasp the concept of the Taking Orders Mode.

Self-Promotion (This is not a Mode)

Hitting the Wonder Wharf Ramp (5) a total of 4 times will cause Gene to hand out flyers and award you with 2 Million Points each time this is done.

This will also add another Customer to be served within the next Order Up section of the Taking Orders Mode. You can repeat the above again for another Customer to be added (3 Customers max!). This will make serving the 5 Customers needed for the availability of the Party Time Wizard Mode much faster.

Taking Orders *Timed – 45 Seconds*

Before starting this Mode, I would strongly advise you to complete the Self-Promotion explained above. To start this Mode you will need to hit the Sink Hole (4) a total of 3 times.

Once the Mode starts you will have a time limit to hit as many of the flashing Lanes as possible, these add Side Orders. Hitting the Cross Ramp (10) adds the Burger of The Day.

Doing this will increase the starting value of the Order, it will also give a greater value to the Order Up sequence of this Hurry Up Mode.

Burnt Burgers (can be activated while within the Taking Orders or Fry Time Sub-Modes) *Timed*

If you manage to hit the Bumpers several times within the Taking Orders or Fry Time sequence of this Hurry Up Mode.

This will then start a fire on the Grill. You will then have a short time limit to hit the Ball up the Hugo Lane (6) twice. Doing so will extinguish the Fire and perfect the barbeque flavour of the Burgers.

Fry Time *Timed – 30 Seconds*

Once this section begins you will have a short amount of time to hit the Ball up either of the flashing Lanes to add seasoning to the Burgers, thus making the overall Order value increase the more this is done.

Order Up *Timed*

Once the Fry Time part of the Mode is completed, the last part “Order Up” will begin. Depending on the number of Customers added (1, 2 or 3 depending on how many times you did Self Promotion which was explained at the start of the “Orders” section). The Starting Value for the Orders is linking to the value of the Order taken (how well you did on the previous sections of “Taking Orders” etc.

Shoot the flashing Customer Lanes to have them become lit solid and collect the score displayed on the Dot – Matrix. Remember the faster you do this, the more Points awarded since the score is counting down.

The Lanes that can be flashing are shown in the below image.

Repeat these sections of the Guide below the “Orders” title to serve all 5 Customers and allow access to the Party Time Wizard Mode (detailed much later in the Guide).
