## ADVISORY

### READ BEFORE USING YOUR NES

A very small portion of the population may experience epileptic seizures when viewing certain kinds of flashing lights or patterns that are commonly present in our daily environment. These persons may experience seizures while watching some kinds of television pictures or playing certain video games. Players who have not had any previous seizures may nonetheless have an undetected epileptic condition. We suggest that you consult your physician if you have an epileptic condition or if you experience any of the following symptoms while playing video games: altered vision, muscle twitching, other involuntary movements, loss of awareness of your surroundings, mental confusion and/or convulsions.

### WARNING: DO NOT USE WITH FRONT OR REAR PROJECTION TV

Do not use a front or rear projection television with your Nintendo Entertainment System® (NES®) and this video game. Your projection television screen may be permanently damaged if video games with stationary scenes or patterns are played on your projection television. Such damage may occur if you place a video game on hold or pause. If you use your projection television with this video game, neither Varmphonic Software, Inc., nor Nintendo of America Inc. will be liable for any damage. This situation is not caused by a defect in the NES or this game; other fixed or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.

This official seal is your assurance that Nintendo has reviewed this product and that it has met our standards for excellence in workmanship, reliability and entertainment value. Always look for this seal when buying games and accessories to ensure complete compatibility with your Nintendo Entertainment System.

# QUICK START

## GETTING STARTED

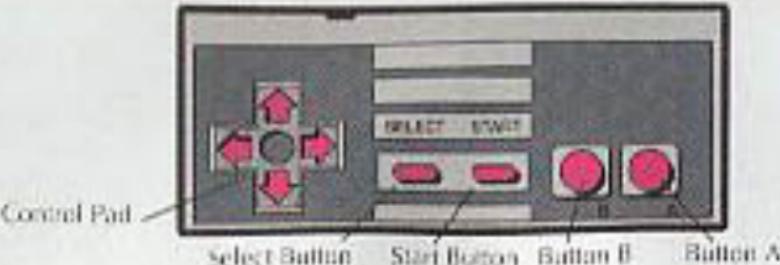

YOU are about to become a member of the elite, the most highly-trained and highly-motivated force in history. YOU are now the pilot of an F-15 STRIKE EAGLE!

1. Make sure the power switch is OFF.
2. Insert the F-15 Strike Eagle cartridge as described in your NINTENDO ENTERTAINMENT SYSTEM® manual.
3. Turn the power switch ON.
4. Press START on your controller.

## PREPARE FOR TAKEOFF!

All you have to do to get right to the action is just keep pressing START until you get to Sortie Takeoff!

1. **Game Option Screen:** Press START to choose a one-pilot game.
2. **Name Entry Screen:** Enter your name, or press START to skip name entry.
3. **Challenge Level Screen:** Press START to choose Airmen level.
4. **Sortie Area Screen:** Press START to choose Libya 1986.
5. **Briefing Screen:** Note your target, then press START to start play.

### CONTROL PAD:

- Pressing Left or Right makes your plane roll. The farther it rolls (without rolling over), the faster it turns.
- Pressing Up makes the plane dive.
- Pressing Down makes the plane climb.

**BUTTON A:** Fires your automatic gun.

**BUTTON B:** Launches a missile.

**START:** Drops a decoy.

**SELECT:** Pauses the game, and calls up the WSG (Options) screen.

**Combat Pilot and Ace levels:**

**SELECT+BUTTON A:**  
selects decoy type

**SELECT+BUTTON B:**  
selects missile type

**SELECT + CONTROL PAD UP:**  
Increases speed.

**SELECT + CONTROL PAD DOWN:**  
Decreases speed.

## TWO-PLAYER PILOT AND WEAPONS OFFICER

In this mode, each player has his or her own hand controller. The Pilot's controller (#1) works just like in the one-player game.

The Weapons Systems Officer ("Wizzo") uses controller #2.

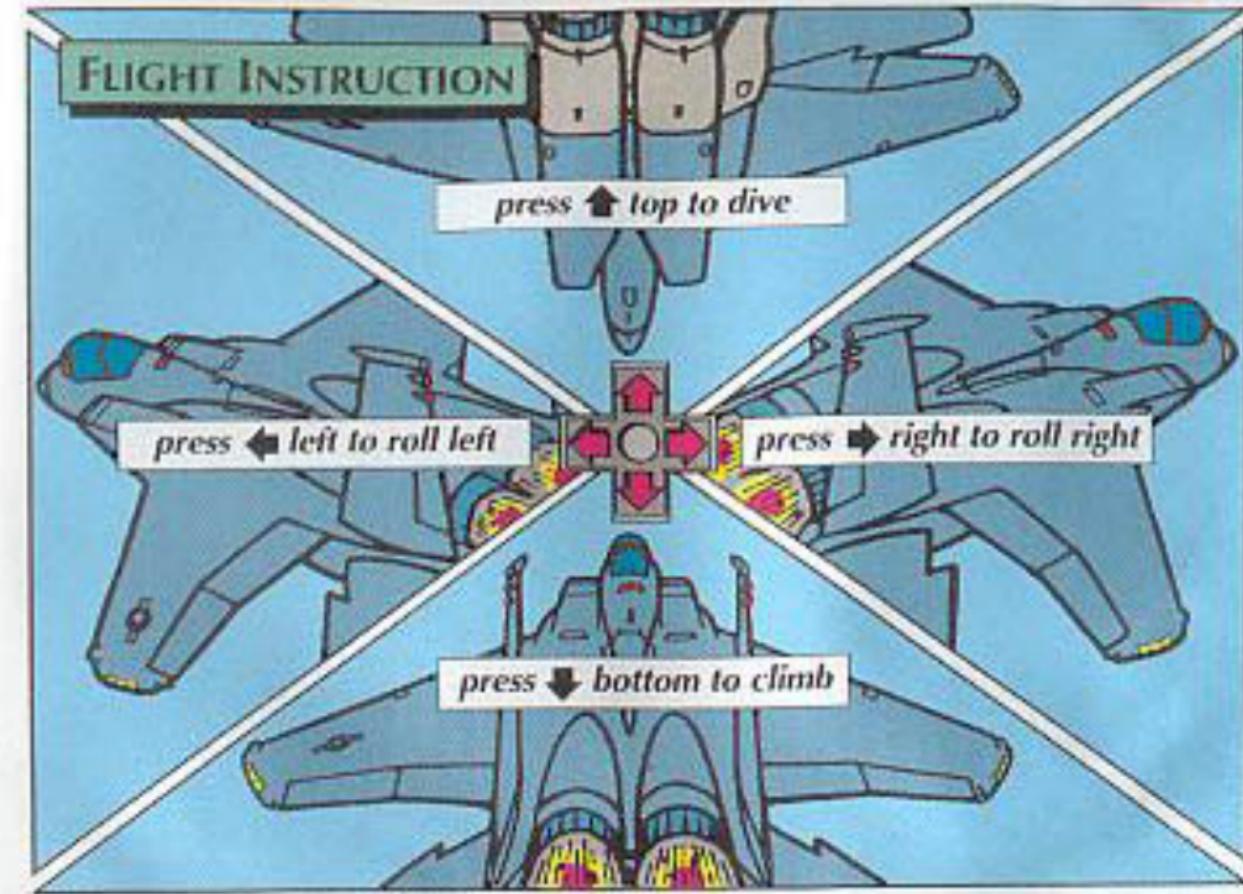

- Button A fires **cannon**.
- Button B launches **missile**.
- START button launches **chaff**.
- SELECT button launches **flare**.
- Control Pad Up/Down changes **throttle**.
- Control Pad Left/Right selects **missile type**.

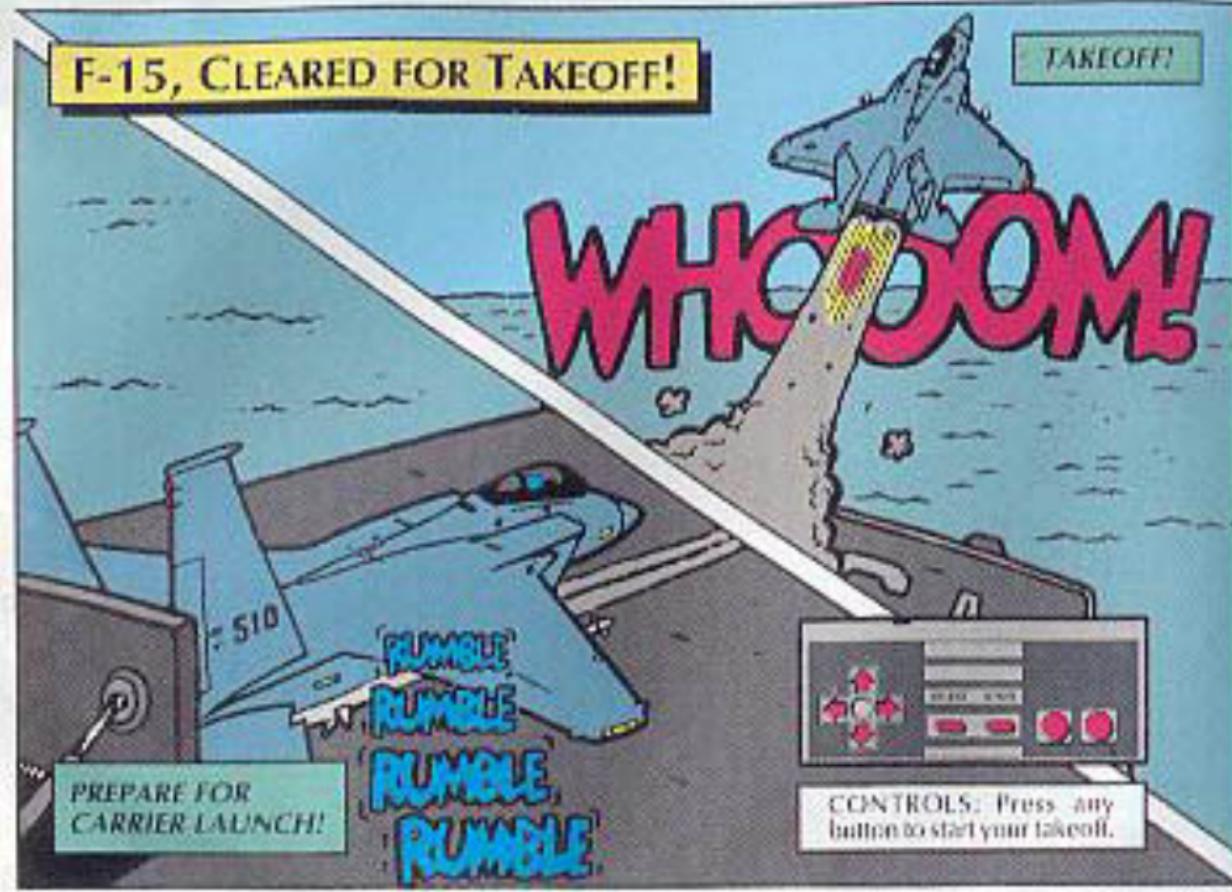

(Control Pad functions in Combat Pilot and Ace levels only.)

## HOW TO FLY THE F-15 STRIKE EAGLE

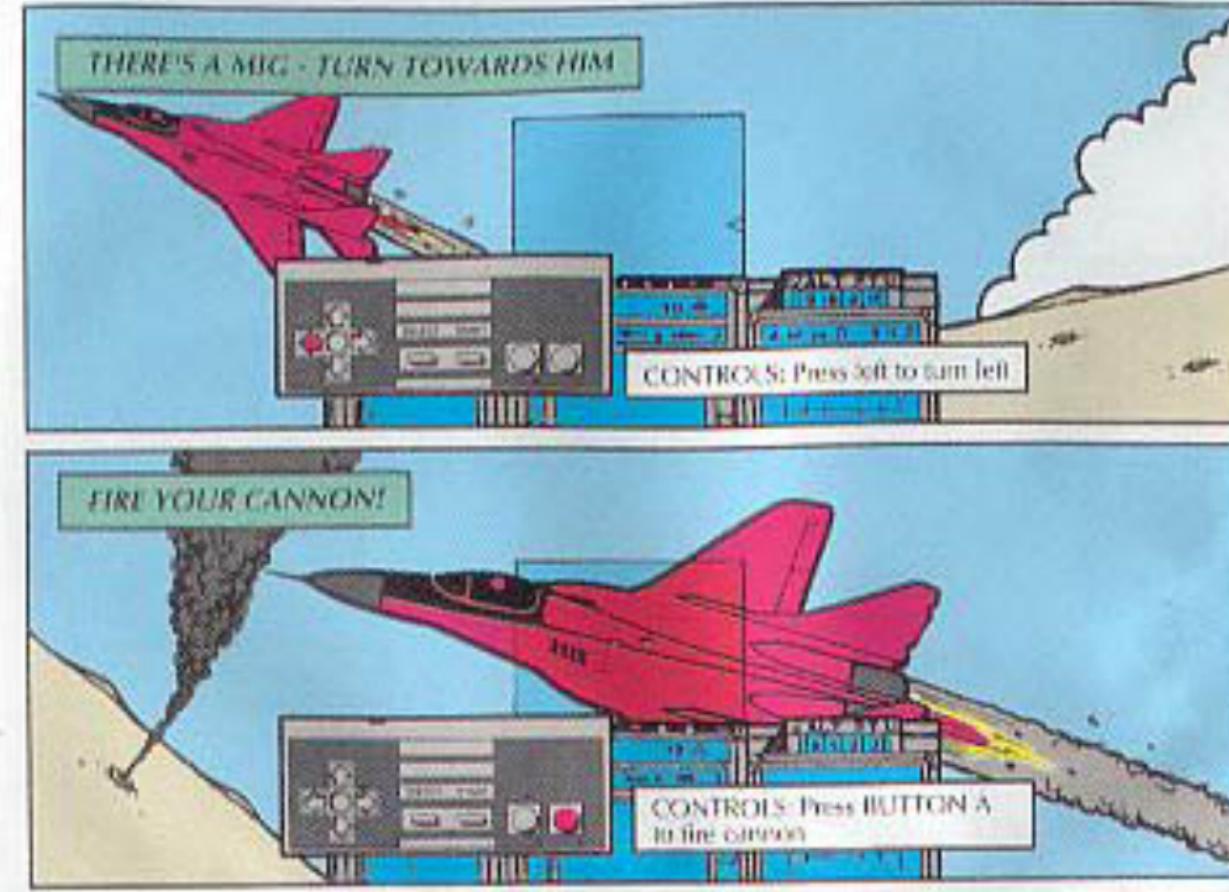

- Turn on your Nintendo NES® and press START.
- *Game Option:* press START for one pilot.
- *Name Entry:* enter your name, or press START to skip on.
- *Challenge Level:* use your Control Pad or SELECT to highlight the level you want, then press START.
- *Sortie Area:* press START to choose Libya 1986.
- *Briefing:* press START to start your Sortie.

## FLIGHT INSTRUCTION

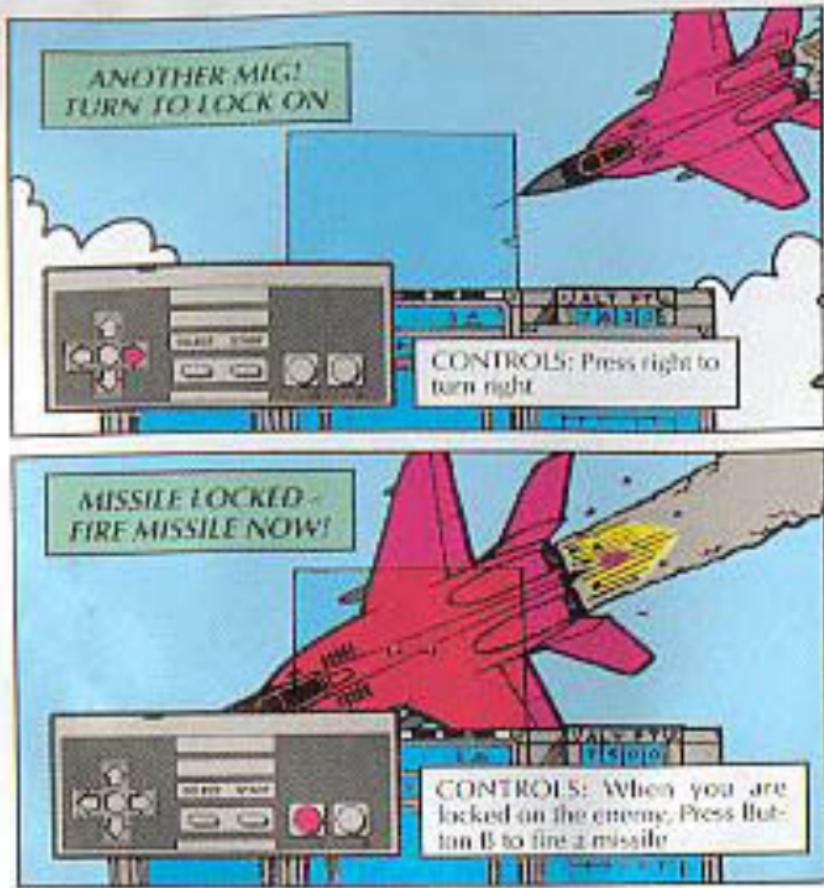

8

9

**YOU GOT HIM!**  
Remember, when the enemy is in the center of the HUD, the lock is on, rotates around it and the lock tone sounds.

**START OVER...**

Keep pressing START until you get back to the Game Option screen.

**GAME OPTION SCREEN**

- **ONE PILOT** is a one-player game.
- **TWO PILOTS**: choose from Pilot and Weapons Officer (two players simultaneously) or Pilots Take Turns,
- **SAVED PILOT** lets you enter a code to bring back an old pilot.

**CHALLENGE LEVEL SCREEN**

- **AIRMAN** gives you limited flight control.
- **PILOT** is a little bit tougher.
- **COMBAT PILOT** gives you unlimited flight control.
- **ACE** sends you into dangerous combat with unlimited flight control: the ultimate challenge!

**... AND PLAY A REAL GAME!**

A screenshot of a challenge level screen. It shows a grey fighter jet flying over a body of water. A yellow streak of light is trailing behind the jet. A large pink box with the word "woosh!" in it is positioned near the jet's trail. The background shows a horizon with some clouds.

## SORTIE OPTIONS

LIBYA 1986

H2/H3 ZONE

IRAQ-KUWAIT BORDER

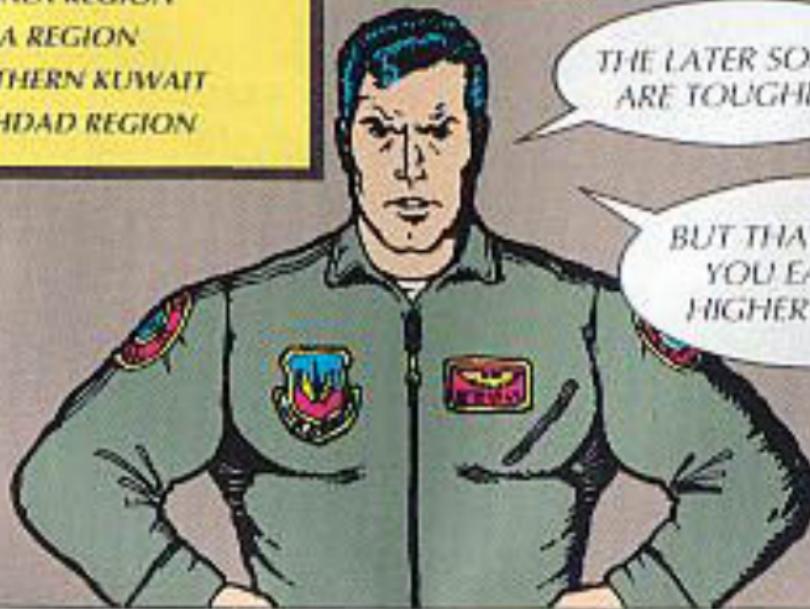

KARBALA REGION

BASRA REGION

SOUTHERN KUWAIT

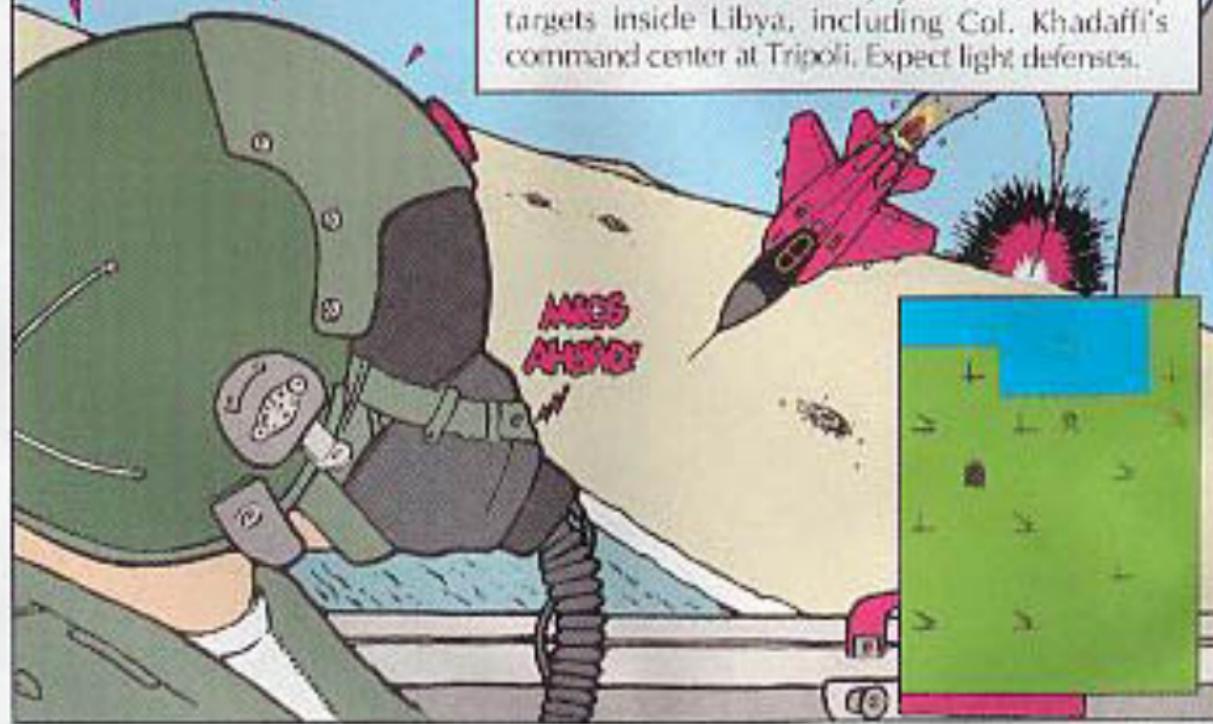

BAGHDAD REGION

These are the Sortie Areas you can choose from. The sorties at the top of the list are much easier than the ones at the bottom. The Libyan air defenses are nothing compared to what you'll find over Baghdad!

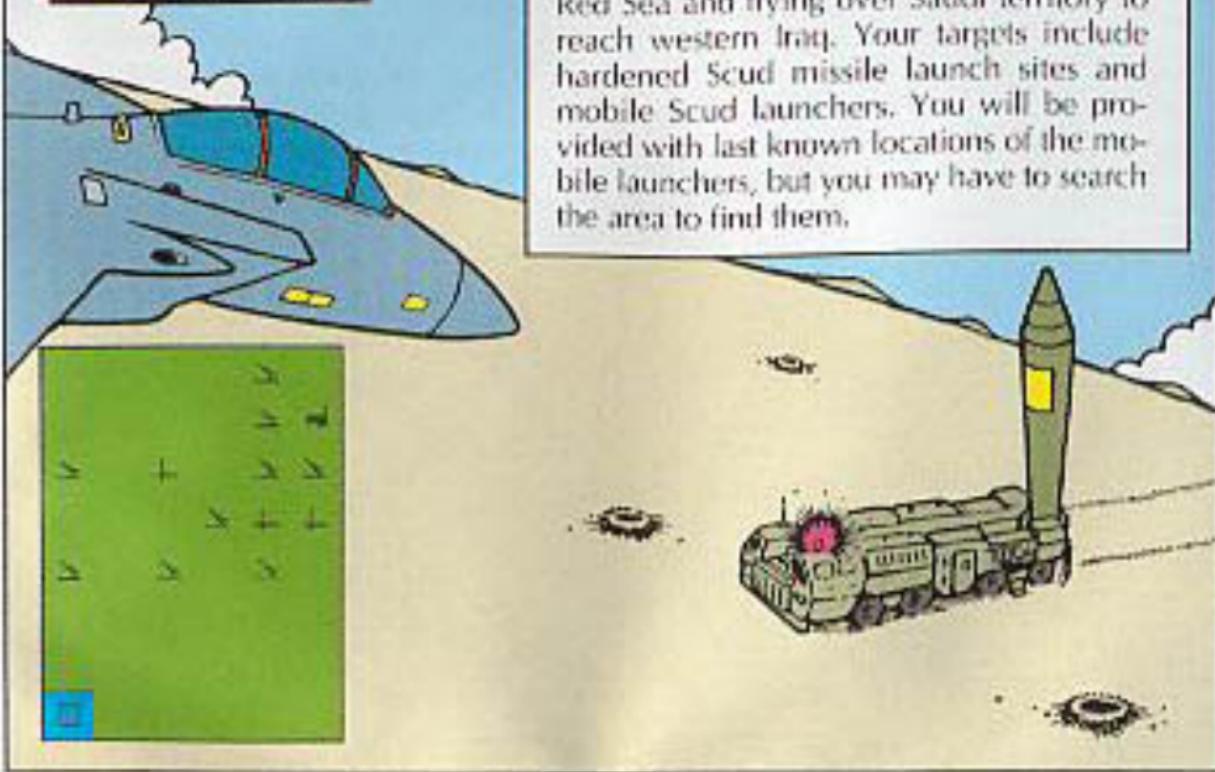

## LIBYA 1986

In retaliation for Libyan-sponsored terrorist attacks on American citizens, on April 15, 1986 U.S. Air Force and Navy jets attack military targets inside Libya, including Col. Khadaffi's command center at Tripoli. Expect light defenses.

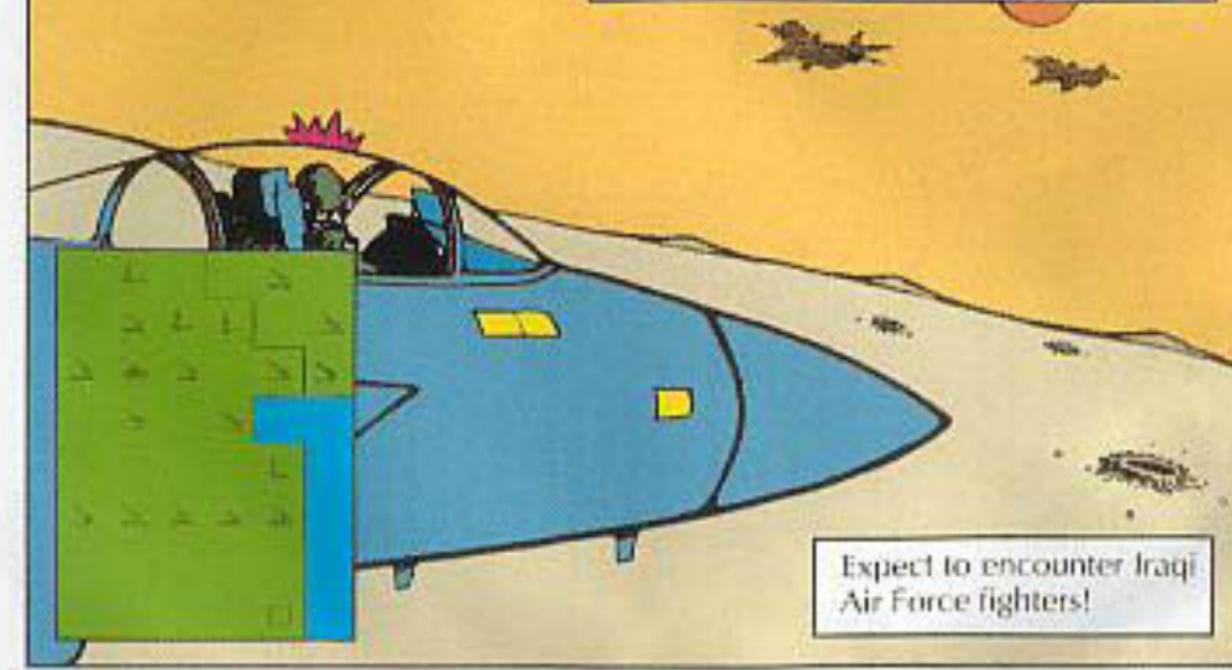

## H2/H3 ZONE

You'll be taking off from CV America in the Red Sea and flying over Saudi territory to reach western Iraq. Your targets include hardened Scud missile launch sites and mobile Scud launchers. You will be provided with last known locations of the mobile launchers, but you may have to search the area to find them.

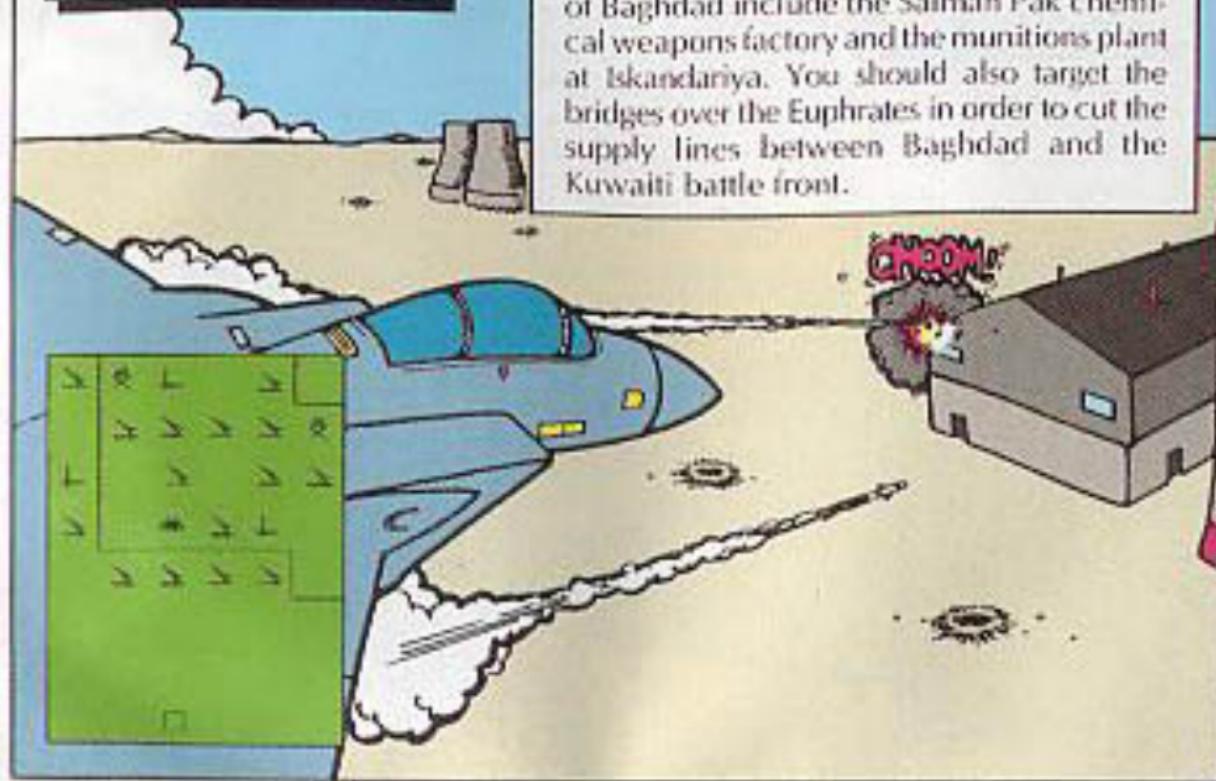

## IRAQ-KUWAIT BORDER

Iraq's elite Republican Guard units are massed along the northern border of Kuwait. You are to eliminate their concentrations of armor.

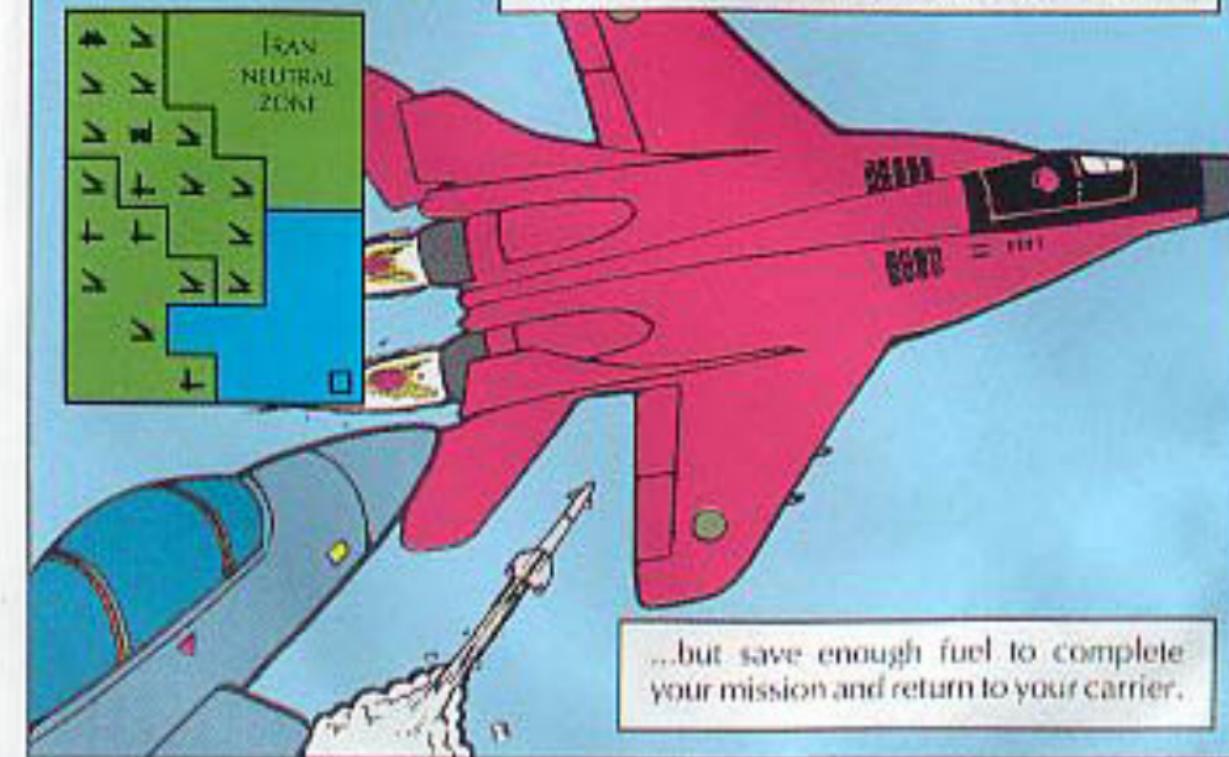

## KARBALA REGION

Military targets in the Karbala region south of Baghdad include the Salman Pak chemical weapons factory and the munitions plant at Iskandariya. You should also target the bridges over the Euphrates in order to cut the supply lines between Baghdad and the Kuwaiti battle front.

## BASRA REGION

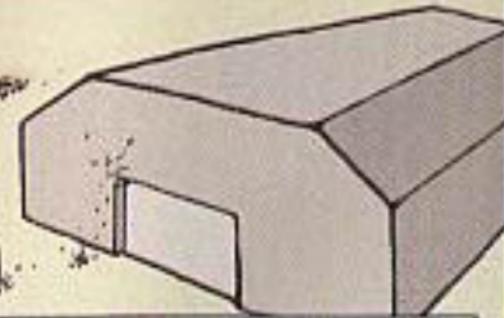

Iraqi warplanes fleeing to Iran may turn to attack you in this region. Take out as many as you can...

## SOUTHERN KUWAIT REGION

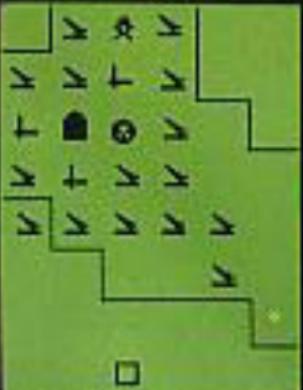

Your targets in the Southern Kuwait Sortie Area are mainly command bunkers and armor concentrations. You will also have to destroy an oil refinery in order to stop the flow of oil the Iraqis are dumping into the Persian Gulf.

You'll have to hit the refinery exactly — this could take more than one attack run!

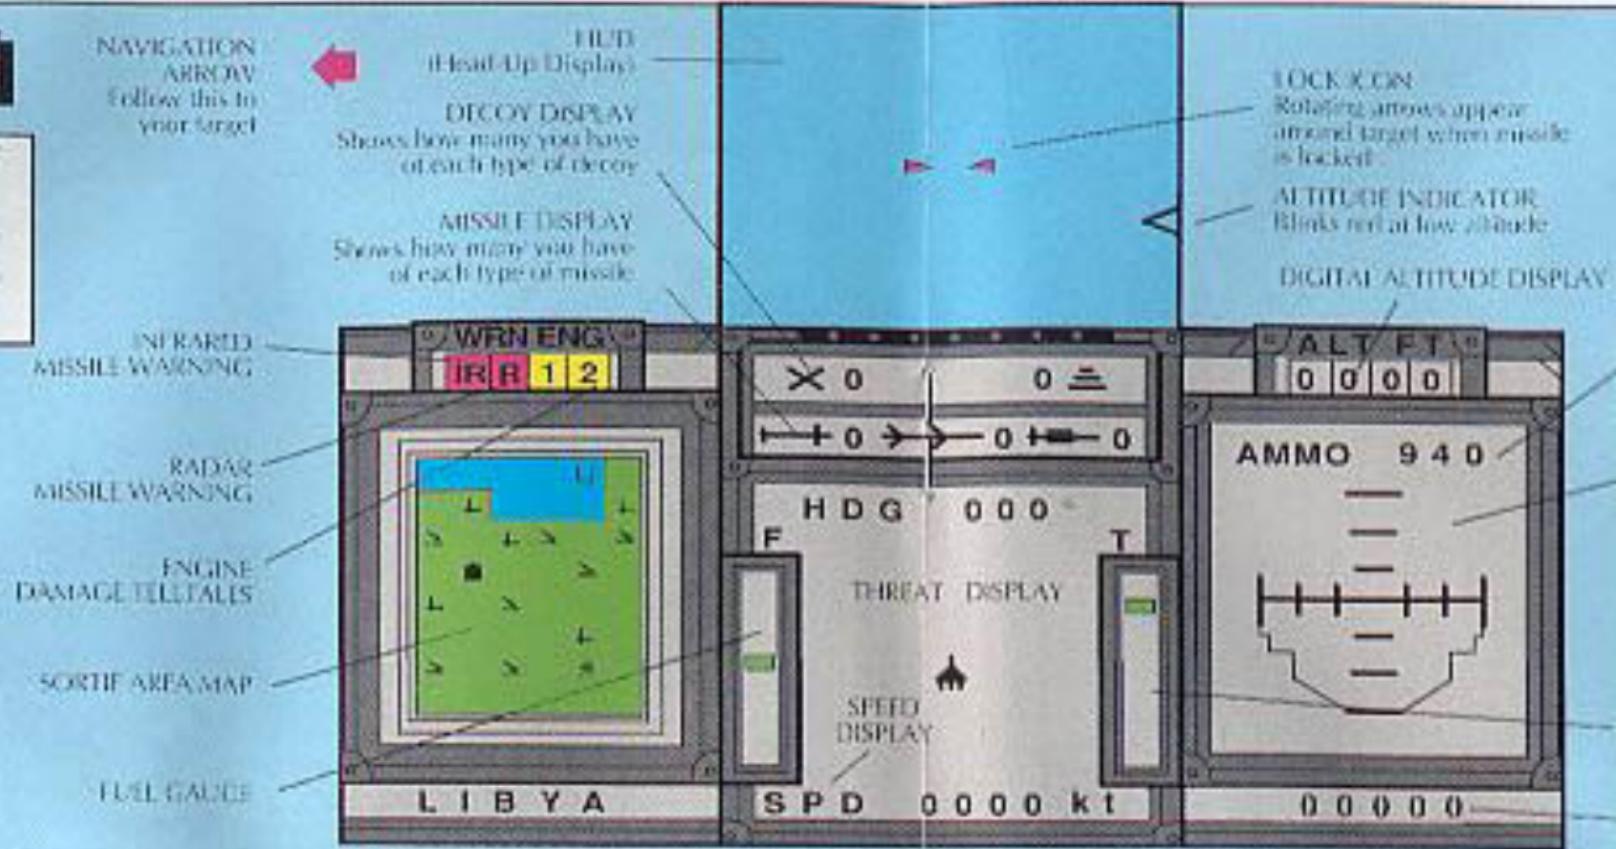

## BAGHDAD REGION

But expect a lot of SAMs and flak over Baghdad! The Iraqis will throw everything they have at you. Saddam's nuclear weapons plant has got to go!

## F-15 COCKPIT

This is the cockpit of your F-15 Strike Eagle. Study it carefully — the information it provides you can save your life!

- **Engine Damage Telltales:** These turn red and flash when your F-15's engines have taken damage. If both are red, you're in trouble!

• **Lock Icon:** When a target is in your HUD but not yet locked, it is bracketed by crosshairs. When the crosshairs change into a pair of rotating arrows, you have missile lock on the target.

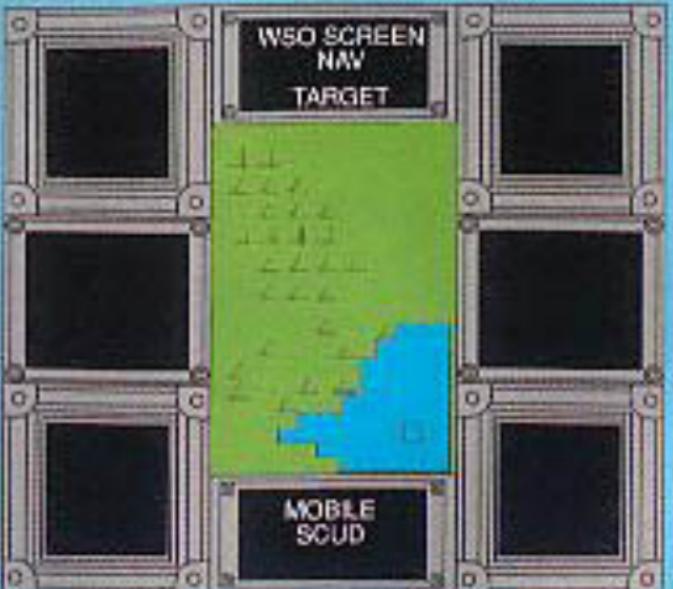

• **Artificial Horizon:** this shows you which way *down* is when you can't see the horizon. It replaces the ID Screen when your nose is tilted sharply up or down.

## FINDING YOUR TARGET

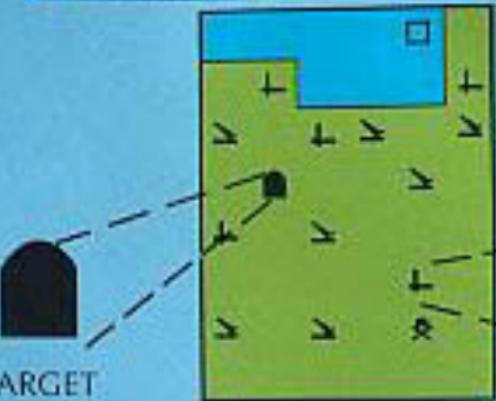

Press SELECT for the Wizzo Display

Press Select to pause the sortie and go to your Wizzo display. At Airman and Pilot Challenge Levels you can choose to navigate toward your Target or your home Base.

## TARGET

If you choose TARGET, the flashing Navigation Arrow at the top of your flight screen shows you which way to steer to go toward your target. (A Sortie always starts with the Arrow pointing toward your PRIMARY TARGET.)

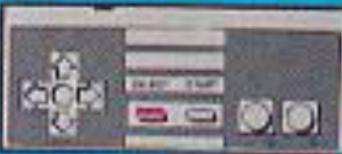

Get Primary, and TARGET automatically switches to secondary.

## BASE

If you choose BASE, the flashing Navigation Arrow steers you toward your Home Base. (When you've destroyed the Primary and all Secondary Targets, the Arrow automatically points toward your Base.)

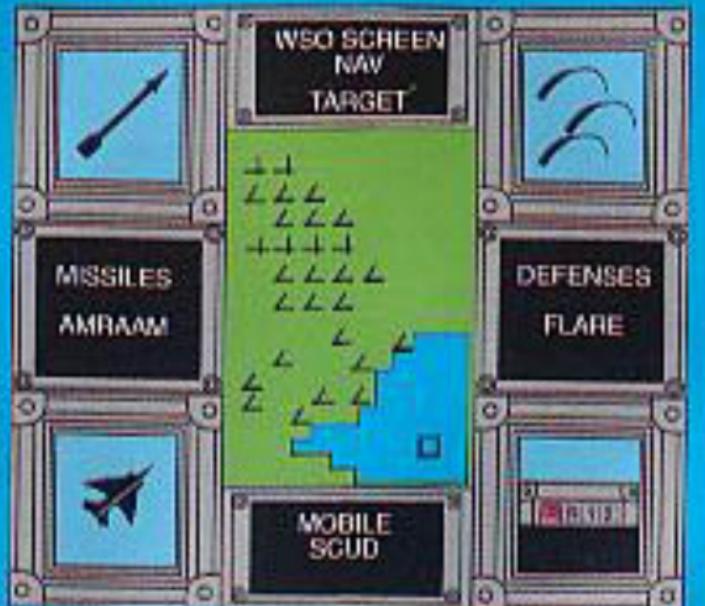

## ADVANCED WSO DISPLAY

Press SELECT for  
the WSO Display

At Combat Pilot and Ace Challenge Levels, your "Wizzo" display has additional options.

As an Ace, you are entitled to a greater choice of weapons and defenses.

### SIDEWINDER

AIM-9M "Sidewinder", a heat-seeking air-to-air missile. Use at short range.

### AMRAAM

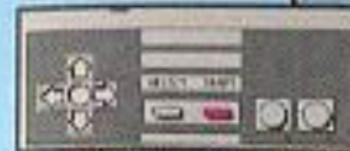

AIM-120A "AMRAAM", a radar-guided air-to-air missile. Use at long range.

### MAVERICK

AGM-65D "Maverick", a video-guided "smart" missile. Use on all ground targets.

## DECOYS

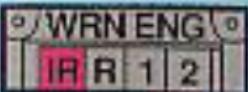

Press START to drop a Decoy!

WHEN YOU GET A MISSILE  
WARNING, PRESS START  
TO DROP A DECOY!

AT AIRMAN AND PILOT  
CHALLENGE LEVELS,  
YOUR DECOYS ARE  
GOOD AGAINST ALL  
TYPES OF MISSILES.

## IR WARNING: DROP A FLARE!

COMBAT PILOT/ACE Levels: "IRR" warning means a heat-seeking missile is inbound!

Your glowing flare will  
decoy heat-seeking mis-  
siles away from you!

## RADAR WARNING: DROP CHAFF!

COMBAT PILOT/ACE Levels: "IR R" warning means a radar-homing missile is after you!

Your chaff cartridge ex-  
plodes into a cloud of tinsel  
that will confuse radar-  
homing missiles!

## USING THE RADAR: YOUR THREAT DISPLAY

YOUR F-15

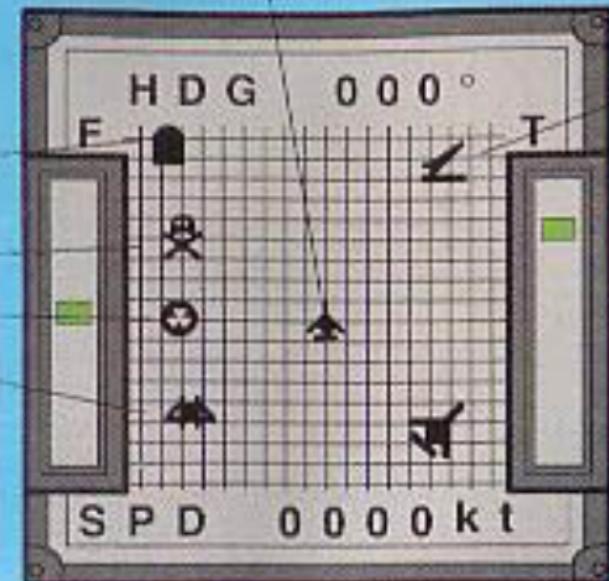

### TARGETS:

Headquarters  
Bunker

Chemical  
weapons plant

Nuclear plant

Strategic  
bridge

SAM Site  
Launches Surface-to-Air Missiles!

### ENEMY PLANES

Yellow are  
HIGHER  
than you

Red are  
LOWER  
than you

The Threat Display shows your F-15 in the center, and nearby enemies around it.

## THROTTLE AND FUEL

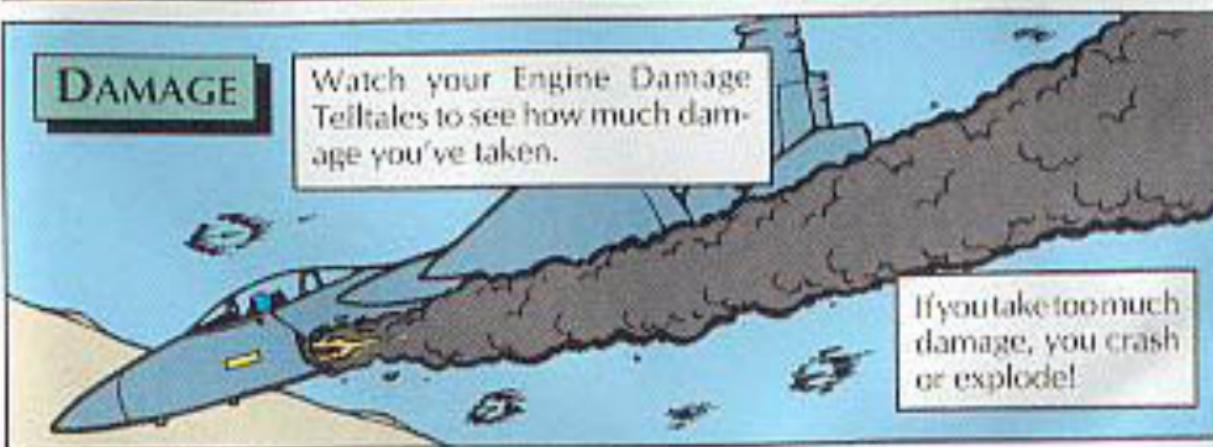

FUEL GAUGE  
The longer you fly, the faster this goes down.

THROTTLE  
This is the "gas pedal" that controls your speed.

**WATCH THAT FUEL GAUGE!**

## DAMAGE

Watch your Engine Damage  
Telltale to see how much damage you've taken.

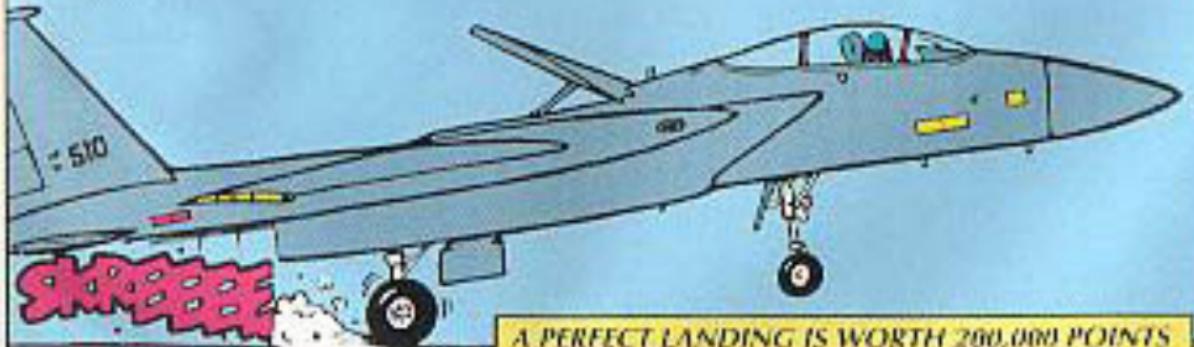

If you take too much damage, you crash or explode!

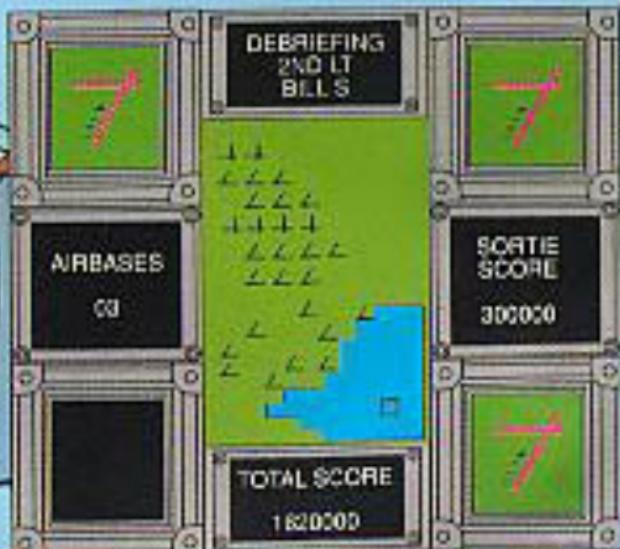

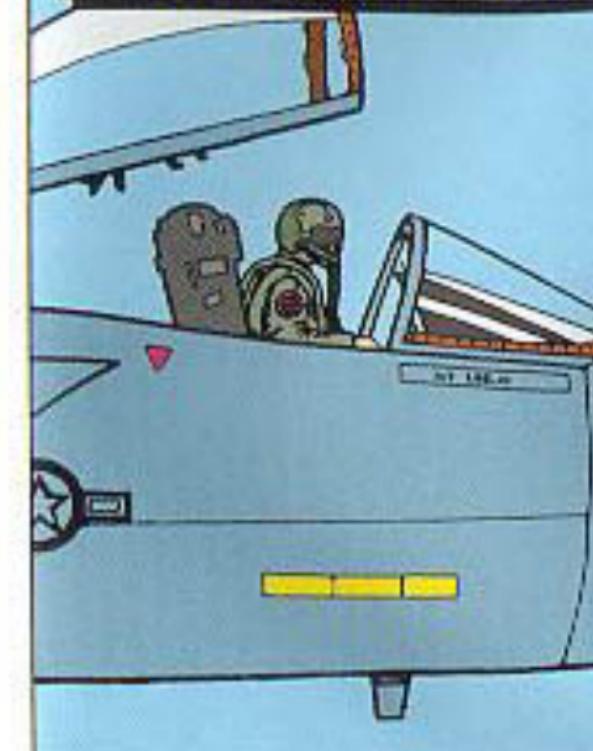

## ADVANCED TACTICS: LANDING

**LANDING APPROACH:** IN the Combat Pilot and Ace Challenge Levels, you have no automatic landing capability. To land, approach your base below 10,000 ft (10K, in the red altitude zone) with level wings.

**LANDING CONTROL:** Use your control pad to steer the plane - try to keep the landing brackets centered on the crosshairs. Your throttle will automatically decrease.

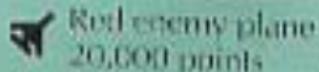

## MISSION OVER: DEBRIEFING

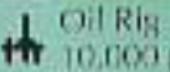

Your sortie over, you go to Debriefing, to recap your successes and add up your score. The map shows where you took out each target on your sortie.

## SCORING

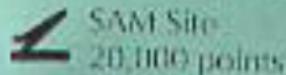

All scores are at Airman level. At higher Challenge Levels,  
targets are worth more!

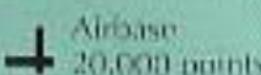

Red enemy plane  
20,000 points

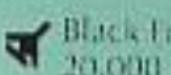

Oil Rig  
10,000 points

SAM Site  
20,000 points

Airbase  
20,000 points

Black Enemy Plane  
20,000 points

## Primary and Secondary Targets

Primary Targets: 100,000 points Secondary Targets: 50,000 points

Headquarters Bunker

Chemical/Biological Weapons Factory

Strategic Bridge

Scud Missile Launcher

Armor (Tanks)

Nuclear Weapons  
Research Plant

The Primary Target is always the first target you are directed to in a Sortie. After it is eliminated, you are directed to two Secondary Targets, one after another.

## PROMOTIONS

2nd Lieutenant  
(Your starting rank)

Captain  
2,000,000 points

1st Lieutenant  
500,000 points

Major  
5,000,000 points

Lt. Colonel  
10,000,000 points

Colonel  
20,000,000 points

General - *The Top Rank!*  
40,000,000 points

When a pilot flies sortie after sortie, his accumulated score keeps adding up. The higher the total score, the higher your pilot ranks!

## MEDALS FOR VALOR

Air Force Achievement Medal  
1,000,000 points  
All Sortie Areas

Air Force Commendation Medal  
2,000,000 points  
H2/H3 Sortie Area

Bronze Star  
3,000,000 points  
Iraqi Border Sortie Area

Silver Star  
4,000,000 points  
Kuwait Sortie Area

Distinguished Flying Cross  
5,000,000 points  
Basra Sortie Area

Air Force Cross  
6,000,000 points  
Kuwait Sortie Area

A medal is awarded for achieving a high score in a single sortie. Each medal lists the score needed for the award, and the first Sortie Area in which it can be earned. For example, you can win only the Achievement Medal in the Libya Sortie Area, but in the H2/H3 Area you could also win the Commendation, and in the Iraqi Border Area you could also win the Bronze Star.

## F-15'S HIGHEST AWARD:

### THE CONGRESSIONAL MEDAL OF HONOR

MAJOR BILL

You can win the Medal of Honor only if you score over 8,000,000 points in the Baghdad Sortie Area!

## SAVING YOUR PILOT

*F-15 STRIKE EAGLE* lets your pilot fly again and again with a simple entry code system. First, record your pilot's name on the Name Entry screen.

By saving your pilot and flying repeated sorties, your pilot accumulates more points and earns a higher rank!

F-15 STRIKE EAGLE

PLAYER ONE ENTER NAME

BILL S

Press the Control Pad to change letters. Press a button to Choose a letter. Select END to continue.

## RECORD YOUR CODES

If you're planning to quit after a sortie, be sure to copy down the pilot code displayed after the debriefing and awards.

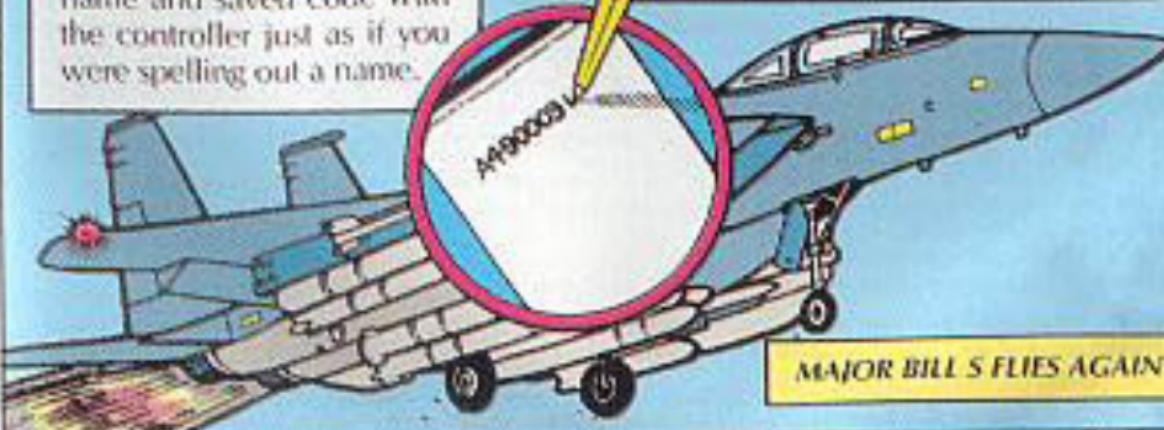

When you play again, choose SAVED PILOT and enter your name and saved code with the controller just as if you were spelling out a name.

F-15 STRIKE EAGLE

THIS IS YOUR PILOT CODE

## COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following means:

- Reorient the receiving antenna.
- Relocate the NES with respect to the receiver.
- Move the NES away from the receiver.
- Plug the NES into a different outlet so that the computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

### How to Identify and Resolve Radio-TV Interference Problems.

This booklet is available from the U.S. Government Printing Office, Washington, D.C. 20402, Stock No. 004-000-00345-4.

## MICROPROSE SOFTWARE LIMITED WARRANTY

MicroProse Software Inc. warrants to the original purchaser of this MicroProse software product that the medium on which this computer program is recorded is free from defects in materials and workmanship for a period of ninety (90) days from the date of purchase. This MicroProse software program is sold "as is," without express or implied warranty of any kind, and MicroProse is not liable for any losses or damages of any kind resulting from use of this program. MicroProse agrees for a period of ninety (90) days to either repair or replace, at its option, free of charge, any MicroProse software product, postage paid, with proof of date of purchase, at its corporate facilities.

This warranty is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect in the MicroProse software product has arisen through abuse, unreasonable use, mistreatment or neglect. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES AND NO OTHER REPRESENTATIONS OR CLAIMS OF ANY NATURE SHALL BE BINDING ON OR OBLIGATE MICROPROSE. ANY IMPLIED WARRANTIES APPLICABLE TO THIS SOFTWARE PRODUCT, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE NINETY (90) DAY PERIOD DESCRIBED ABOVE. IN NO EVENT WILL MICROPROSE BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THIS MICROPROSE SOFTWARE PRODUCT.

Some states do not allow limitations as to how long an implied warranty lasts and/or exclusions or limitations of incidental or consequential damages so the above limitations and/or exclusions of liability may not apply to you. This warranty gives you specific rights, and you may also have other rights which vary from state to state.

MicroProse Software Inc., 180 Lakelawn Drive, Hunt Valley, MD 21030 (301) 771-1151
