TABLE SPECIFICS

Notice: This Guide is based off of the Zen Pinball 2 (PS4/PS3/Vita) version of the Table on default controls. Some of the controls will be different on the other versions (Pinball FX 2, etc...), but everything else in the Guide remains the same.

INTRODUCTION

Zen Studios has teamed up with Fox to give us an Archer Pinball Table. The Table was released within a pack titled “Balls of Glory” which featured 4 Pinball Tables based on hit animated TV shows, one of those was of course Family Guy.

Family Guy Pinball sees you play through various Modes which draw inspiration from many of the shows episodes. The Table incorporates the art style of the cartoon, and various audio works from the Family Guy series itself. The voice work is also ripped straight from the show to add that extra bit of authenticity.

I hope my Guide will help you understand the Table better.

Skill Shot - *500,000/1 Million Points, can be raised*

The Skill Shot can be attained by hitting Peter with the right amount of power via the Ball Launch Lane.

If done right you will firstly be awarded with 1 Million Points. To do so have the Plunger (Joe) set similar to the Image below.

If you hit Peter but the plunger wasn't set right you will instead gain 500,000 Points. Of course if you miss Peter altogether, than no Skill Shot is awarded.

Each time you gain a Skill Shot in the same game, the point's value will go up by 1 Million Points.

Kick Back & Ball Save

Kickbacks –

The Kickbacks on this Table are activated by first performing a 4x Combo. Basically hitting the Lanes in quick succession of each other.

Once a 4x Combo is achieved the Stewie Sink Hole (1) will begin flashing for 10 Seconds.

Hit that to claim a Kickback. Repeat this process again to activate both Kickbacks.

Ball Save -

Ball Save on this Table

****Note – This Ball Save will expire once its timer expires or you drain the Ball, whichever comes first.****

Ball Save is also temporary activated at the start of the many Game Modes.

Extra Balls

There are 5 Ways to achieve an Extra Ball;

Collect the Extra Balls by hitting the Ball under the Top Right Flipper (“Under the Arm”) -

- **Method 1:** *Get a 10x Combo streak*; hitting Lanes in quick succession of each other will start a Combo, hit 10 to light Extra Ball.
- **Method 2:** *Shoot the Ball “Under the Arm” (under the Top Right Flipper) 10 times without losing the Ball*; to hit the Ball under the Top Right Flipper, simply hold the Right Flipper Button down, and then with the Left Flipper hit the Ball towards it. Do this 10 times within the same Ball to light Extra Ball.
- **Method 2:** *Reach 10x times Multiplier*; look later in the Guide at the section titled “Raising the Multiplier” for information on how to get this Extra Ball.
- **Method 4:** *Play through all 4 of the Citizen Modes in Citizens of Quahog*; look later in the Guide at the section titled ‘Hurry Up Modes – Citizens of Quahog’ for information on how to get this Extra Ball.
- **Method 5:** *Reaching the max level of “Speed of Love”*; look later in the Guide at the section titled “Speed of Love” for information on how to get this Extra Ball.

Raising the Multiplier

The Multipliers on this Table will increase by 2x times, every time you complete the Rollovers above the Bumpers. Alternate the Rollover lights by pressing the Flipper Buttons.

Once you completely max out the Multiplier at 10x times, you will light up **EXTRA BALL**.

Note – Multiplier Level resets upon draining the Ball.

Quahog 5 News Bumpers

Every 30 Bumper Hits will result in Breaking News being reported from Channel 5 News.

Each time this is achieved you will gain a some bonus Points, I once got this up to 3 Million Points.

Sweet Rollovers Rewards

Spell out “SWEET” on the 5 Rollovers on the In’s & Outlanes. Alternate the lit Rollovers using the Flipper Buttons. This is doubly important because if the Ball rolls down a lit Rollover that light will turn off. So you need to have it always roll down an unlit Rollover.

Once done you will be randomly rewarded with something along the lines of –

- Receiving a random Point based bonus.
- Activating Ball Save.
- Lighting up a Letter from one of the Main Modes activation Lanes (explained later in the Guide under “Main Modes” Section).
- Activating a Kickback.

Under the Arm

Hitting the Ball under the Top Right Flipper (performing an “Under the Arm” shot) will result in higher scores, activating “Hold X Multiplier” or Ball Save, and if you do this 10 times on the same Ball it will also light up EXTRA BALL.

Speed of Love

Hitting the Spinner located at the entrance of the Stewie Orbit (2) will cause it to spin. For every 50 rotations the Spinner those you will be awarded with a score bonus. Continuely doing this will eventually lead to the lighting up of the **EXTRA BALL**.

Sibling Rivalry Video Mode

To start this Video Mode you will need to hit the Stewie Sink Hole (1) a total of 3 times.

After the 3rd time you will be taken to the Video Mode playfield. Here you will be controlling Stewies Jet –

- **Right** Flipper Button = Fly Up.
- **Left** Flipper Button = Fly Down.
- **Launch** Button = Fire Weapon.

The goal here is to avoid the oncoming enemy Helicopters and their Missiles, while shooting down 10 of them to advance to the Boss Fight.

The Boss fight will have you facing Bertram himself. Unlike the previous enemy Helicopters, He wont die with just one hit, you will need to repeatedly hit him to drain his Health Bar to be victorious.

Once you do that, the Mode is completed and a 2 Million Point reward will be scored.

Hurry Up Modes

Citizens of Quahog - Hurry Up Modes ***Timed***

To start 1 of the 4 Citizens Hurry Up Modes you will first need to hit all 4 Citizen Targets/Orbit (6).

Each Target represents the 4 Citizen Modes. The 1st Target will always be the Hurry Up Mode that will start, so in the Image above its Seamus, therefore that Mode will start.

Also once you play through all 4 of The Modes, **EXTRA BALL** will then become available under the Top Right Flipper.

Consuela

In this Hurry Up you will need to clean the Dot – Matrix before the timer expires. Hit the 4 flashing Lanes.

Herbert

In this Hurry Up you will need to hit either of the 3 flashing Lanes repeatedly. The first time will award you with 200,000 Points, then each time a further 200,000 Points will be added. So second time will be 400,000 and then 600,000 Points. Once it reached 1 Million Points the Mode is completed, also each successful hit will add more time to the overall timer.

Dr. Hartman

In this Hurry Up you will need to hit the Bumpers repeatedly, a total of 30 times to be precise.

Seamus

In this Hurry Up you will need to hit the flashing Lanes to gather all the pieces to assemble Seamus.

There are 4 Lanes each with a different piece to collect, only 1 will be flashing each time and they will routinely change. They are –

- Stewie Orbit (2)
- Chris Ramp (5)
- Chicken Ramp (8)
- Peter Ramp (9)

Once you collect a piece from either of these Lanes, that Lane will be completed and therefore wont flash again. Collect all the pieces from the Lanes to complete the Hurry Up.

The Clam - Hurry Up Modes ***Timed***

These 3 Hurry Up Modes are activated once you have hit the Ball up and through the Clam Mini – Orbit (7) the required amount of times (displays on the Dot – Matrix). Once that is done a Clam will open up at the entrance of the Clam Mini – Orbit (7), hit the Ball into it to start one of the Modes.

Now at the end of each of these Modes, whether they are completed or not doesn't matter. Each time a Ball will be automatically locked towards the Clam Multiball Mode (explained later in the Guide under "Multiball Modes – Clam Multiball" section).

Joe

In this Hurry Up simply shoot the flashin Lanes as many times as possible before the timer runs out to score as many points as possible.

Quagmire

In this Hurry Up simply shoot the flashin Lanes as many times as possible before the countdown timer runs out (starts at 2 Million Points) to score as many points as possible. Whatever score is displayed on the Dot – Matrix at the time of hitting the flashing Lane will be awarded to your overall score.

Cleveland

In this Hurry Up there will be 3 Lanes with Bath Tubs sitting at the top of them. Randomly 1 of those Bath Tubs will begin to fall down the Lane, simply hit the Bath Tub back up the Lane or better still if you manage to hit it before it even starts to fall down. You will know which Tub will start to fall first/next as that Lane will first begin flashing. The Mode ends after either all 3 Bath Tubs are broken or saved.

Multiball Modes

There are 3 Multiball Modes on this Table –

Chicken Fight Multiball Mode *2 Balls*

Activation –

This is activated by first hitting the Ball up the Chicken Ramp (8).

This will in turn bring up the Chicken Target (in front of the Ramp). Hit this Target several times.

Once done, it will open up a hidden Sink Hole. Sink the Ball into it to start the Multiball Mode.

Mode itself -

The 2 Ball Multiball will then begin:

Hit the flashing Lanes for **Jackpot** awards, and remember that the Chris Ramp (5) will start to flash when **Super Jackpot** is available to be collect via a shoot up that Ramp.

Destructible props will also appear at various parts of the Table Playfield, these grant additional Points when hit. You will also get a bonus if the 2 Balls collide with each other.

The Multiball Mode will continue as long as you have more than a single Ball alive on the Playfield. Otherwise the Mode will end, and you will need to repeat the above activation process to re-enter this Mode.

The Clam Multiball Mode *3 Balls*

Activation –

Activation of this Multiball Mode requires you to have activated the 3 Clam Hurry Up Modes (detailed earlier in the Guide under “Hurry Up Modes – Clam” section). Once that is done, the Clam locker will appear at the entrance of the Clam Mini – Orbit (7).

Hitting the Ball into it will start up the Multiball Mode.

Mode itself -

This is a 3 Ball Multiball;

All the Lanes will become **Jackpot** Lanes, but you can only increase that **Jackpot value** by sending a Ball into the Clam locker at the entrance of the Clam Mini – Orbit (7).

The Multiball Mode will continue as long as you have more than a single Ball alive on the Playfield. Otherwise the Mode will end, and you will need to repeat the above activation process to re-enter this Mode.

Giggity Multiball Mode *3 Balls *

Activation –

You will first need to hit the Giggity Target/Sink Hole (11).

Once that is done you will have a limited amount of time to lock a Ball into the exposed hidden Sink Hole.

You can either lock a Ball by hitting the now exposed Giggity Sink Hole (11) itself, or hitting the Ball under the Top Right Flipper (“Under the Arm”).

Mode itself -

Once the 3 Ball Multiball begins, you will see 3 flashing **Jackpot** Lanes.

If you manage to hit all 3 of those, then **Super Jackpot** will become available via a shot up the Chris Ramp (5).

Once the **Super Jackpot** is collected, another 3 Jackpot Lanes will begin flashing. Rinse and repeat the process to score as much Points as possible.

The Multiball Mode will continue as long as you have more than a single Ball alive on the Playfield. Otherwise the Mode will end, and you will need to repeat the above activation process to re-enter this Mode.

Lastly you would need to hit the Stewie Orbit (2), once done the Mode will be completed.

Hit all 3 of the Meg Targets (4) to start this Mode.

Once the Evil Monkey is hit twice, the Mode will be completed.

Once done, the Mode is completed.

Duo Modes

These Modes will become available to activate once the required Main Modes are activated/completed.

Save Stewie ***Timed***

- Starting/Completing Stewie & Brian Main Modes (explained in the above section “Main Modes”) will gain access to the Save Stewie Duo Mode.

Send the Ball into the Stewie Sink Hole (1) to start the Duo Mode.

Mode Itself –

Within this Mode just hit either of the flashing Lanes repeatedly. Careful! As time is out-of-whack so the Ball will be returned back to you, and it's easy to drain the Ball accidentally.

You will need to perform 6 shots via the flashing Lanes within the time limit.

Lastly to complete the Mode, you need to sink the Ball into the Stewie Sink Hole (1).

Guess What ***Timed***

Wizard Mode – “Family Matters” *4 Ball Multiball*

This Wizard Mode is available to start once you have at least started up all 6 of the Main Modes.

***TIP** – Make sure to complete as many Duo Modes (detailed above this Section under “Duo Modes”) as possible before starting up the Wizard Mode. As the more Duo Modes you complete, the scores available in the Wizard Mode will in turn become higher.*

Wizard Mode itself –

This is a 4 Ball Multiball Wizard Mode. Meaning the Wizard Mode will continue as long as you have more than a single Ball alive on the Playfield. Otherwise the Wizard Mode will end, and you will need to repeat the above activation process to re-enter the Wizard Mode.

In this Wizard Mode, the goal is to hit the flashing **Jackpot** Lanes (they will be alternating between each other). Making sure you try to hit the Chris Ramp (5) as that is where the **Super Jackpot** is available. So hit as many Lanes etc. as possible to make the highest possible score you can.

Once you lose the Multiball, the Table will then reset.
