## ABOUT CODEMASTERS AND ITS YOUNG FOUNDERS.

David and Richard Darling started writing video games while they were in their early teens and still at school in England.

From these beginnings David and Richard became contract games authors. They wrote games for many major British software houses, and many of them turned out to be runaway best sellers. The boys had by then realised that they had a natural talent for coming up with games that people really want to play!

David and Richard formed Codemasters, their own company, in October 1986. Within a year Codemasters was the best selling games software publisher in the UK. Codemasters has dominated UK charts.

Over thirty of the worlds best games people work at Codemasters global headquarters, a 96 acre farm in the heart of rural England. Codemasters has the resources, the expertise and the drive to bring you the very best in video game entertainment and that's exactly what Richard and David aim to do!
