Thank you for selecting the Nintendo Entertainment System® SQOON™ Pak.

Please read this instruction booklet to ensure proper handling of your new game, and then save the booklet for future reference.

PRECAUTIONS
1) This is a high precision game. It should not be stored in places that are very hot or cold. Never hit or drop it. Do not take it apart.
2) Avoid touching the connectors, do not get them wet or dirty. Doing so may damage the game.
3) Do not clean with benzene, paint thinner, alcohol or other such solvents.
4) Read the instruction booklet for "SQOON™" thoroughly.

1. The story of SQOON p.2
2. How to play p.5
3. Enemy data and diagrams p.a

1. THE STORY OF SQOON

— Swiss Government TV —
"Planet Earth is in a state of emergency! Cities all over the world are sinking into the ocean!"

"Even as I speak, my own city is sinking. The water is already up to my knees! I am sacrificing myself for this broadcast. Earth Defense Army has announced that the Neptunians, an underwater race of alien beings, have invaded Earth and are melting the polar ice caps. They are living under the sea and using humans for food!"

Six months ago at the Bankoran Palace on Neptune, the rulers of the planet recognized that their world was dying. It was being turned into desert by falling meteorites. Man-ham livestock, which the Neptunians used for food, was being destroyed. To escape this terrible fate, the Neptunians were forced to move their entire civilization into the sea. They knew they'd be temporarily safe in the sea but would eventually die of starvation.

The Neptunian government therefore decided that the only way to save their people was to invade Earth (where there was plenty of man-ham). They constructed special space ships with giant water tanks for them to live in during the trip, but only the highest government officials and the beautiful Miss Neptune were able to escape before the planet was totally annihilated.
About the time the Neptunians landed on Earth, a pirate named Narikeen was mining gold under the oceans of the world using his submarine SQOON. He was a dastardly pirate and committed all kinds of crimes. When his SQOON was full of gold, he would go into port and trade his gold for grog. But this time, when he tried to go into port, he discovered that it had disappeared. In fact, all the land was gone!

Just then a message came in over his radio:

"MAYDAY—MAYDAY—Narikeen come in please.—
This is the General of the Earth Defense Army—"

The Neptunians are melting the polar ice caps using hot water produced by their bio-factories and all the continents are sinking. The underwater factories are also manufacturing additional warriors to help them capture the Earth. Narikeen Help us!

Narikeen responded to the General’s plea by saying "Are you asking ME to help? I am the evil pirate Narikeen! If I help others, my reputation will be ruined! I won’t be able to show my face in public again."

"Narikeen, don’t say that. Thousands of people are captured in the Neptunians’ underwater domes. Are you going to allow humans to become Neptunian food?" the General asked.

"Ha ha ha ha! That’s what you get for eating so much fish, General! You’re not as smart as you thought you were!" said Narikeen.

"Narikeen, please, we need you! The Pentagon has been destroyed by tsunamis and our entire Earth Defense Army is almost completely gone. You are the only one left who can save Earth. If you kill all the Neptunians you will be a hero."

"Really, General?" replied Narikeen. "Well, if even l can become a hero, l’ll destroy the Neptunians for the good of the human race. However, SQOON, my submarine, can only carry nine people at a time. I’ll need to ferry them to the safety of my small motorized island. And I’ll need plenty of fuel to complete my mission."

"You’ve got it," said the general. "The Neptunians are pretty strong. They won’t be easy to defeat. Be careful! I’ll send you some enemy data that our intelligence forces have gathered. Study it well."
2. HOW TO PLAY SQOON

- **START button**
  When you press the START button at the title screen or during the demo, the game will start.
  To **PAUSE** the game: Press the START button during the game. The music will change and the game will pause. Press it again while paused to resume the game.

- **CONTROL pad**
  Moves SQOON up, down, left and right.
  If you touch a human with SQOON, the human will be rescued.

- **A button**
  Fires missiles.

- **B button**
  Fires ice ball gun. To transfer humans to the small motorized island, surface and repeatedly press the "B" button when the island is directly above SQOON.

WEAPON POWER-UP

Two step power up
When you start the game, you are equipped with the horizon missile. When you rescue nine people and receive power-up energy, you power up one step.

1. **Horizon missile**
   It is effective but weak.

2. **Bow-wow missile**
   The first time you power-up, your weapon will be upgraded to the Bow-wow missile.

3. **Adenoid missile**
   If you have the Bow-wow missile and power-up again, you will have this weapon at your disposal. It is the most powerful missile available.

★ **Horizon Missile**
   Kills the Neptunians (the enemies).

★ **Ice Ball Gun** (bottom shooting missile)
   Destroys bio hot water factory and enemies. When you break the ocean bottom dome with the ice ball gun, the humans come swimming out. Rescue them quickly and transfer them to the small motorized island to receive energy for SQOON.
HOW TO RESCUE PEOPLE

If you touch the people swimming toward the surface with SQUOON, they will be rescued. If SQUOON is full (nine people maximum) or is carrying gold and one or more persons, then the small motorized island will appear. When you and the motorized island are aligned on the surface, press the "B" button. The rescued people will be transferred to the motorized island. Rescuing a person is worth 100 points and getting them to the motorized island is worth 200 points.

ENERGY

When you bring nine people, or one person and one gold, to the small motorized island, energy will be dropped. If you can touch the energy, SQUOON will be fully powered.

* Energy (fuel) lasts for 60 seconds. When 20 seconds of fuel remain, SQUOON will blink and the alarm will sound.
* If energy runs out, you will lose one SQUOON, so watch your energy carefully!

Your objective is to visit each country in the world, destroying the Neptunians along the way. The final goal is the North Pole. You will begin at New York.

HAWAII -> CHINA -> INDIA

NEW YORK -> ENGLAND -> GREECE

3. ENEMY DATA

Humiko (sea slug)
Look for it around the cities. It picks up the magic necklace that the mermaid Kizuri has dropped. If you pick up the magic necklace and destroy the big hot water factories, the balance of ocean energy will be disturbed, and you may be able to go to a place far beyond this world. This is a magical phenomenon.

I quote...

Chokkô-ken (missile)
If you shoot it with the ice ball gun, the shell of the chip comes off and you can get the gold inside. Touch the gold to collect it. In a few seconds, though, the shell will return, and the chip will start working again. Use your guns well. One gold and one person allow you to refill from the small motorized island.

Pyrocrone
This is the Neptunian soul. If you are killed by this, you're not going very well. The Pyrocrone dance as the music.

Outsiders
Barbana (the ruler of the Neptunian island) asked someone to create a new robot, but this is the result. This is a robot that needs more brains.

Barbana (dummy) Get away! Get away! The barbana is coming! Try to steer clear of this enemy.

Neptunian robot
Aces the mines floating in the ocean. You can destroy them with the ice ball gun.
FACTORY DIAGRAMS

Factory A

- Can be destroyed with ice balls - 1000 points each section.
- Cannot be destroyed with ice balls.
- Ocean bottom dome - It's the dome where the people are being held captive.
- Breathing piston - It creates air, to keep the humans alive.
- Pross piston - It creates the source of energy, prati-pross thirteen, for the bio-factory.
- Plus capsule - It shakes the prati-pross thirteen to create ten times more energy. Look out, it's dangerous!
- Hard boiled mantle - The center of the hot water factory, it's burning red hot.
  This is what melted the polar ice caps.
- Mantle molder - This discards used hard boiled mantle.
- Bio chimney - Creates the followers of the Neptunians, like the Pirame and Ancho.
- Pachiloriru (MK7 Univox) - Manages the bio-factory.

Factory B

- Can be destroyed with ice balls - 1000 points each section.
- Cannot be destroyed with ice balls.
- Telepter - Communicates with the Neptunians base.
- Marine cleaner - It cleans the ocean for the Neptunians.
- Chiritori - Finds enemies quickly.
- Dome keeper - Guards the ocean bottom dome.
- Hamcuder - Man-ham, food for the Neptunians, is made here.
Can be destroyed with ice balls — 1000 points each section.
Cannot be destroyed with ice balls.

1. Dari telepter — Communications center. Sends commands to telepters.
2. Pakonoido 8932 — Main computer (CPU). Controls the base.
3. Torinoido — Sub-computer which works for the Pakonoido 8932.
4. Marikutereku — All the records of the Earth invasion are kept in here.
COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

How to Identify and Resolve Radio-TV Interference Problems

IREM USA'S LIMITED 90 DAY WARRANTY

IREM Corporation USA (IREM USA) warrants for a period of ninety (90) days following the original retail purchase of this Game Pak® (PAK) that the PAK is free from substantial defects that will materially interfere with the operation of the program as described on the enclosed user documentation.

If you believe you have found any such defect or error in the program during this warranty period, call Bedfordshire Software's Technical Support Department, 414-492-5200 between the hours of 9:00 and 5:00 (Pacific Time, Monday through Friday). Bedfordshire technical personnel will attempt to help you correct or avoid the problem. If any such error or defect cannot be corrected or avoided by Bedfordshire Support or the end user, Bedfordshire will inform you how to obtain a correct PAK free of charge. Bedfordshire may also arrange for a refund of your purchase price.

PAK REPLACEMENT POLICY

If any PAK fails within ninety (90) days for any reason other than accident or misuse by the customer, please return the defective PAK together with a stamped proof of purchase to Bedfordshire Software/Distributor of your choice, 34000-297, for a free replacement.

IREM USA will replace PAKs damaged for any reason, whether during or after the ninety (90) day replacement period, for $12.50 each plus postage and handling charge of $2.50 per order, as long as the program is still being manufactured by IREM USA.

LIMITATIONS ON WARRANTY

Unauthorized modifications: IREM USA warranties only that the program will perform as described in the enclosed documentation and will not interfere with other software or hardware, except as specifically included in this product. Any unauthorized modification of this program or any other device shall void this warranty.

Roadside hazards: IREM USA excludes any warranty that the software, whether as a part of this product or any other, will prevent or avoid loss, injury or damage to persons or property, or that it will be effective in preventing or avoiding loss, injury or damage to persons or property, or that it will be effective in preventing or avoiding loss, injury or damage to persons or property.

No consequential damages; IREM USA shall not be liable for special, incidental or other consequential damages, even if IREM USA is advised of the possibility of such damages.

Software errors: This software is not distributable as a whole or in part, or to any other person or organization without the express written consent of IREM USA. If you are not authorized to make any such change, contact IREM USA at the address above for further information.

For technical support on this or any other IREM USA product, call 414-492-2500.
