PLEASE CAREFULLY READ THE SEPARATE HEALTH AND SAFETY PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT HEALTH AND SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, such as while watching TV or playing video games, even if they have never had a seizure before.

- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:
  - Convulsions
  - Eye or muscle twitching
  - Altered vision
  - Involuntary movements
  - Loss of awareness
  - Disorientation

To reduce the likelihood of a seizure when playing video games:
1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

WARNING - Repetitive Motion Injuries and Eyestrain

Playing video games can make your muscles, joints, skin or eyes hurt after a few hours. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:
- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don’t think you need it.
- If your hands, wrists or arms or eyes become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms or eyes during or after play, stop playing and see a doctor.

WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may cause popping sounds.

To avoid battery leakage:
- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not use batteries in the Game Boy. When the batteries are leaking, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

PRINCESS IN PERIL?

During the unveiling ceremony for the new “Sky Cannon” at the Fun Fair, Princess Peach was accidentally blasted off to Bowser’s castle! The Sky Cannon, an amazing new transportation device that launches people to new destinations, got off to a rocky start because of this shocking turn of events.

According to eyewitnesses, the mishap occurred when a pair of shady Goombas altered the cannon’s direction. Within moments, they had locked up the castle, with Princess Peach trapped inside!

MARIO TO THE RESCUE!

Without a moment’s hesitation, Mario leapt into the cannon to rescue Princess Peach. If Mario collects four Star Keys, he’ll be able to get into Bowser’s castle. To do that, he’ll need to confront many challenges and defeat the bosses who hold those keys! Will he be able to rescue Princess Peach?

How Does it Work?

Before you can ride the Sky Cannon, a special “Pinballer” squeezes you into ball, so that you can fit into the cannon’s barrel. The Pinballer also makes you surprisingly rubbery, so that you bounce harmlessly when you land!

   Defeat multiple enemies at one time to get more points.

2. **Get a Star**

STAGES

Paths Between Areas

Each stage is divided into several areas. You can move from one area to another by using doors or moving Mario onto special spots.

The number of Stars required to open a door is written on the door.

In this case, if you have one Star, you can hit Mario at the door to open it.

Tricks and Treats!

If you use Mini Mushroom (see page 28), Mario shrinks, allowing you to enter small holes in the stage. You can find lots of tricks inside those holes! Also, if you get lucky, the Bonus Tower appears. If you hit the tower with a Yoshi Egg (see page 23), you can earn many points. However, if the Yoshi Egg disappears from the area, so does the tower.

The Fun Fair

This stage has both a haunted house and a roller coaster. It looks fun, but...

Haunted House

The entrance is closed at first, but it will open if you do the right things.

High Rider

If you hit it hard enough, you'll ring the bell, and a Yellow or Blue Coin will pop out.

Sky Cannon

Use the cannon to go to different stages.

Shopping Secrets

Some shops are always open in certain places, and other shops only open when you remind Toad. Hit Toad with Mario to get him to open his shop.

You'll need coins if you want to buy items at the shop. If you already have one item and you buy a new one, you lose the item you were carrying. Some items can take you to special mini-game areas when you buy them.

- **Mr. Blizzard**
  He'll throw snowballs at you. If you hit him with Mario, he'll become dizzy for a little while.

- **Ice Block**

**GRASSY GREENS STAGE**
This verdant stage is full of lush greenery and vicious insects.

- **Beehive**
  Bumblers come out of the beehives. Use a Mini Mushroom to enter them.

**SHIFTING SANDS STAGE**
What mystery lies deep within this sun-scorched desert?

- **Cactus**
  If you hit a cactus, you get points, but the ball bounces back extra-hard.

- **Sphinx**
  The sphinxes hold some secret to the pyramid...

**FIERY STAGE**
This stage fills everyone with a nameless dread.

- **Blue Switch**
  Hitting these switches stop the windmill blades, making it easier for Mario to enter the windmill's door.

- **Boss Statue**
  Insert the Star Keys into these boss statues. You'll need all the Star Keys to open the gate to Bowser's castle!
